- Annual Report of Department of Mines 1921.
- Fifth Biennial Report of Department of Agriculture 1921-1922.
- Twenty-Ninth Biennial Report of the Attorney General 1920-1922.
- Biennial Report of State Superintendent of Free Schools 1921-1922.

## REPORT OF THE STATE AUDITOR

---

State of West Virginia, Auditor's Office.  
Charleston, W. Va., August 15, 1922.

HON. E. F. MORGAN,  
Governor of West Virginia.

SIR: In compliance with Section 19, Chapter 17, of the Code, I submit herewith my biennial report as Auditor of West Virginia covering the period ending June 30th, 1922.

Inasmuch as this report covers a part of the time of my predecessor in office, no revision as to form or subject matter is attempted, and the statistical tables and statements found in the following pages are practically the same as have appeared in previous reports of this office. These tables showing receipts, disbursements and balances of the several funds are of a self-explanatory nature. In my next report many of these tables will be omitted, as under the law as amended in 1915 the Tax Commissioner reports in detail on much of the subject matter contained herein. Some of the tables of the comparative assessment of certain kinds of property are of doubtful accuracy, because of incomplete data furnished and will hereafter be omitted.

My predecessor in office has heretofore called attention to the fact that new duties have been added to this office from year to year and that the work of the department has increased rapidly. While there has been a general increase in the work of all bureaus or subdivisions of the office within the past year, the work of some bureaus has practically doubled. This is especially true of the accounting and claims divisions, due largely to the reorganization of the State Road Commission and the steps taken by that commission to begin an effective program of road building. The detail work of the office will be discussed more fully under the sub-headings of the different bureaus or subdivisions, which make up the department.

Prior to the creation of the State Board of Control and the office of the State Tax Commissioner the duties of the Auditor were pretty clearly defined by law. To each of those departments were allotted some of the duties formerly performed by the Auditor, and there are now various instances of conflicting and overlapping

authority in the law. However this is also true of other departments, due to piecemeal and haphazard legislation from year to year. However, all these conflicts will no doubt be cleared up by the work of the Code Commission, created by the legislature at its last session and now engaged in a revision of the State Code.

Since assuming the duties of the office of Auditor on March 4, 1921, I have given the office my close personal attention and have attempted to become familiar with the details of the various branches or bureaus. The office and its force of employees have largely been reorganized. Much attention has been given to classifying the work along the lines of modern business principles and while there is yet much to be done along this line, I believe that some improvement has been made. Some modern office equipment has been added.

Notwithstanding that this is a political office, I hold to the fact that it can be organized on a modern business basis similar to that of a progressive private corporation, and while the employees of the office are of my own political party, they have been employed not only because of their party affiliation but on a basis of efficiency and loyalty to their work and to the State. If this office has shown improvement in the dispatch of the state's business, a large part of the credit is due to my force of loyal employees, who, I believe, will compare favorably in efficiency with those of any successful business corporation.

I have tried to confine my efforts to the duties of this office and have not attempted to dictate or control affairs of the State which, under the law, are delegated to others. Such success as I might have achieved in the way of administering the affairs of the office has not been heralded from the housetops, and my office does not maintain a press bureau.

It is my opinion that a public official, in whom the people have reposed their trust, owes it to give the best possible service of which he is capable, and that if he must make a sacrifice it should be of his own personal interests rather than that of the people who elected him. While I have no desire to cast the slightest reflection upon any person in office in this state, past or present, with whom my official relations have generally been most cordial, it can frequently be given as a characteristic of a political office-holder that much of his time is given to thoughts of succession in office, and I regret to say that sometimes his official acts are determined by the

same motive. In my opinion success in office is more to be desired than succession in office, and political victory at the sacrifice of principle would certainly be more ignominious than conscientious defeat. Selfishness, political ambition and thirst for official power and personal prestige on the part of officials frequently cause them to reach out for additional authority, which may become dangerous if granted. In matters of legislation the interests of the state should be considered above the whims of particular persons or classes.

The duties of the Auditor are sufficient to keep me busy and instead of asking for additional duties, I prefer that the legislature relieve me of some of those I now have. This office was primarily created to keep the accounts of the State and to audit and pay claims. From time to time additional duties and bureaus have been added until it has become one of the largest as well as one of the most important offices in the State. The Legislature of 1921 fixed the salaries of all the executive officials of the State, except the Governor, at the same figure and at a lower rate than that paid many appointive officials. This salary bill was passed as an emergency measure at the preliminary session of the legislature. I do not believe that the directors of an efficient business concern would have so rated the different offices as to salary.

As you know the state's finances are low, so far as the State fund out of which the current expenses are paid is concerned, and there would be a deficit for the past two years if all of the legislative appropriations had been expended. This situation is reported in detail by the Tax Commissioner as Ex-Officio Inspector and Supervisor of Public Offices, who has assumed many of the former duties of the Auditor as to reports of the State's financial condition and recommendations as to the State's revenues.

### STATE DEPOSITORY LAW

There has been some slight discussion the past few years relative to the manner of handling state deposits and bills have been introduced in the legislature with a view to giving the State Treasurer full authority to deposit the state funds. Similar bills will no doubt be introduced at the next session. While there might be merit in some of the minor amendments included in House Bill No. 6, and Senate Bill No. 17, session of 1921, those provisions which provide for centering entire control of banking of the state's

finances in the hands of one official were of such a radical and dangerous nature that both bills were deservedly smothered in committee.

Under the present law any person paying money into the state treasury places the same in a state depository, which has been designated by the Board of Public Works and has given a bond as required by law. The depository issues a certificate of deposit to the person making payment, and the state gets interest on such deposit from that day. The certificate of deposit is forwarded to the state department which is charged with making that particular collection. Credit is given the account and the certificate is sent to the Auditor in order that he can make proper entries thereon as to the fund into which the money in question is payable. The Auditor delivers the certificate to the Treasurer and an official receipt is issued for the payment. Frequently payments are made direct to the department charged with the collection and that department deposits the money in some depository as a convenience to the person making the payment.

Under the bill proposed as an amendment to the law the person owing the state would make payment by certified check or draft to the department charged with the collection, and that department would be required to turn over all such checks to the Treasurer, who would have absolute authority as to the depository in which such funds would be placed.

The Treasurer now has full authority to dictate the depository or depositories on which state checks shall be drawn. The proposed bill would, therefore, give him absolute control over the millions of dollars collected and paid out annually by the state, so far as the banking of these funds is concerned.

Such a law would be a dangerous and radical departure from staid business principles and would open the way for graft, corruption and the use of the state's funds for personal gain, to say nothing of the official power given this officer over banking institutions, should the people ever make the mistake of electing a Treasurer who is not patriotically devoted to the state's best interests. He could make a deal with some bank in which he could place say a hundred thousand dollars, with the guarantee that it would be allowed to remain for one year or longer. This cannot be done under the present law, as the Treasurer makes but few collections and the officer making such collections cannot enter into any such agreement, and a bank would not, because there would be no assur-

ance that the Treasurer would not check the money out the next day. The present law provides a sort of double check, and while the law is old it has indisputable merit. Under our law as at present there will be no such proceedings in West Virginia as were recently brought against a former Treasurer in a near-by State where the Treasurer has practically absolute control over state deposits.

If the law is changed as proposed the state would lose thousands of dollars annually in interest while checks were in transit in the mails.

It is not true that the Treasurers of a majority of states have absolute control over deposits. While in many states that officer does actually send the funds to the depositories, in most states he acts under instructions of a commission of other state officers who dictate the particular depositories in which he shall make deposits. If our law is to be amended in this particular some such commission or board should dictate the depositing of funds, and not the particular officer who alone has authority to withdraw such deposits. If the power to deposit money is to be placed in the hands of any one officer it should be some other officer than the person who draws it out.

Nor is it true that the treasurer of a private corporation has any such power as to depositing the company's funds. In such cases the Board of Directors, and not the treasurer, decides upon the bank in which the company's money shall be kept.

It is true that there is due the state some \$14,000.00 from depository banks, which have failed the past few years, but this cannot be charged against the present law. A depository can accept state deposits only in three-fourths the amount of its special bond, the sufficiency of which is passed upon by the Board of Public Works. If a depository or an official violates the law a penalty is provided. No law is effective if not enforced.

There may be instances where deposits or certificates of deposit are held longer than necessary by some state departments, but no officer properly performing his duty will permit such delays. It is also true that some officers receiving funds deposit them in special accounts subject to their own checking. While such instances are few, such practices are bad and should be prohibited. Every penny collected for the state should be deposited immediately in a depository to the credit of the treasury of West Virginia and any losses occasioned through such special accounts should be recov-

ered, and in my opinion could be, under the bond of the officer concerned. Such practices are not the fault of the depository law.

Some amendments to the depository law could be made to advantage. The matter of active and inactive depositories has been tried with success in some states. It would be well to reduce the minimum bond of a depository below \$50,000.00 and the number of depositories could well be limited.

### **WORKMENS COMPENSATION FUND**

The Auditor apparently has but little authority or control over the Workmen's Compensation Fund. The receipts from this department are paid into the state treasury into a special fund and disbursements are made upon requisition of the State Compensation Commissioner. While all receipts and disbursements are recorded in this office, it is doubtful if the Auditor has any authority to reject payment of any of the claims approved by the Commissioner.

There is no special provision of law as to the designation of particular depositories for this fund, the law providing that payments shall be made into the treasury in the manner prescribed for other payments. In practice the State Treasurer designates certain depositories wherein such payments are deposited and kept in a separate and distinct fund. No special bond is required of such depositories covering this fund and frequently these special depositories have on deposit funds far in excess of that allowed under the general depository law. Before such deposits are made a special or additional bond should be required.

### **BOARD OF PUBLIC WORKS**

While the duties of the Auditor are numerous and his office covers such a wide field that he can only supervise the work, the law requires of him certain duties which he cannot delegate to assistants. He is a member of certain boards and commissions which he must attend in person and which require much of his time. One of these is the Board of Public Works, which has various duties to perform, including the general management of the capitol buildings and grounds.

Among the important duties of this board is the assessment of public service corporations for purposes of taxation. This work is of immense importance. Under the present plan of assessment of these corporations I do not believe that this board has sufficient

information at hand at the time of making these assessments to pass intelligently upon a matter of such importance. I believe that this situation would be improved through an appropriation, to be expended upon order of the board, for the employment of special assistants to get such information relative to these corporations as might be needed.

This board also invests any surplus in the Workmen's Compensation Fund in interest-bearing securities. The receipts of this fund have fallen off a great deal in the past year and one-half, and the board was confronted with the situation of having promised to purchase bond issues of various counties, districts and municipalities without having sufficient funds to carry out these obligations when such bonds were presented for payment. As a result the board has trafficked a great deal in bonds, and has made various sales of bonds in order to be in position to meet its obligations to the different political subdivisions of the state. While it is good business to sell such bonds when the money can be re-invested in others at a higher rate of interest, I do not believe that the law contemplates that the board should engage in the general buying and selling of bonds, and no promises should be made to political subdivisions to purchase their bonds when issued unless it is absolutely certain there will be a sufficient surplus on hand to purchase such bonds when presented.

This board also acts as the Budget Commission, which will be discussed further along in this report.

### **BOARD OF THE SCHOOL FUND**

The Auditor is a member of and Secretary of the Board of The School Fund, which is charged with the duty of investing the \$1,000,000.00 School Fund. While the constitution provides for this board, such law as has been enacted to carry out this provision of the constitution does not designate the board's duties as clearly as it should. I do not believe that the state should invest in industrial or other private bonds so long as bonds of political subdivisions of the state are available.

### **COMMISSIONERS OF PUBLIC PRINTING**

The Auditor is one of the Commissioners of Public Printing, who are charged with awarding contracts and performing certain other duties in connection with the purchase of the State's print-

ing, binding and stationery supplies. The law governing this commission is contained in Chapter 16 of the Code, with the exception of such restrictions as have been contained in the various appropriation bills. This law has not been amended since 1875, and is obsolete, inadequate, and badly in need of revision.

### **SINKING FUND COMMISSION**

The Auditor is a member of the State Sinking Fund Commission, created in 1921, to invest the sinking funds of the various political subdivisions of the state. This law has been criticized as a centralization of power, since it takes over the duties formerly performed by the county commissioners, school boards and local sinking fund commissions. Time only can tell whether or not it is wise legislation.

### **BUDGET COMMISSION**

The Auditor is a member of the Board of Public Works which, under a recent constitutional amendment, is charged with framing a budget to be presented to the legislature. When I came into office the budget for the current biennium had been presented, though, by invitation of the former commission, I was permitted to sit in at the budget hearings and was later a member of the commission when amendments were made to the budget. Prior to the adoption of the budget amendment, the work of drafting the appropriation bill devolved upon the finance committees of the two houses of the legislature.

That the budget amendment provides an improvement over the old system, no one will deny who will look carefully into the appropriations and expenditures of the state during the past decade. But there is still room for much improvement, which must come through amendments to the state constitution.

With two exceptions, every state in the union has some sort of budget law. The need of a well prepared budget is apparent, and its importance is especially noticeable in this office, through which all state receipts and disbursements for all purposes must pass. A true budget is nothing more nor less than a scientific, financial plan for the state, and is coming to be recognized more and more as one of the most important features of any government. It is a complete financial plan covering a definite period, and is based upon careful estimates, both of expenditure needs and of the

probable income of the state. In no case must the expenditures exceed the revenues, except in cases of bonded indebtedness for permanent improvements, and then proper payment of such indebtedness must be taken into account. The raising of revenue necessarily involves taxation in some form, and there is a tendency of most levying boards to limit taxation only by the capacity and the willingness of the people to pay. Under a true budget system, only such revenues will be raised as are actually needed for an efficient administration of the state's affairs, which will take into consideration proper regard for the future in the way of permanent improvements. Further than this, taxation is a needless burden, and levying bodies must be limited in their authority.

Budget making authorities of the different states have been classified under three separate types: (1) The executive type, now in effect, with minor variations, in twenty-four states, under which the Governor is charged with the responsibility of making the budget; (2) the board type, somewhat similar to this state, in effect in twenty-one states, and (3) the legislative type, now in effect in one state.

It is in the executive type where greatest efficiency will be found. The Governor is the responsible head, and there is no chance for shifting such responsibility. He must have proper agencies for procuring necessary information, and classifying and arranging it so as to be useful. He must have any information he desires from the different state departments and institutions. Then, knowing the needs of the state and its revenues, he is in position to present to the legislature the true situation without prejudice.

In the board type, where the commission is made up of administrative officers, as in this state, there is a tendency for the members to help each other, and also a chance for shifting responsibility. While budget making is a new thing in most states, it has already been established in a majority of them that the head of a department or institution will ask for a larger appropriation than is actually needed. The Governor, with a well trained and organized force, will be in better position to revise estimates and bring them down to actual needs. In my opinion, it will not be until we adopt the true executive type of budget making that we will reach the highest efficiency in state government.

In my opinion, not only should the budget amendment be

changed, but other amendments could well be made to the constitution and laws regulating funds, and all this could be worked out under a proper budget system. We have too many separate and distinct funds in this state, some created by the constitution and others by statute. The word "fund," in its true sense, should not be confused with appropriations.

Under the constitution we have the State Fund, which is the general revenue fund, out of which the current expenses of the state are paid. Then, there are the General School Fund and The School Fund, created by the constitution; the Road Fund, the Workmen's Compensation Fund, the Virginia Debt Sinking Fund, the State Road Sinking Fund and numerous special revenue funds created by statute. Such a large number are cumbersome and unnecessary. The State Fund, general revenue, out of which the current expenses of the state are paid, has been robbed for the benefit of other funds until it is a mere shadow, and within the past year it has been necessary to borrow money for the current state expenses at a time when there was more than a half million dollars lying idle in some of the special revenue funds, and several millions in all the other funds. It is hardly more important for one branch of the government to operate than for another, and the number of funds should be reduced to a minimum. Certain trust and sinking funds, and funds established for specific purposes, are necessary, but aside from these, all the revenue could well go into one general fund for the necessary general expenses of the state. This is being done most successfully in Massachusetts.

A proper budget system would put an end to so-called blank appropriations, and the reappropriation of fees collected by departments and institutions, which amount to hundreds of thousands of dollars annually. Special deposits to the credit of departments or institutions would, also, be stopped.

Under our present system there is no central purchasing bureau, except for state institutions. Every state department and bureau purchases certain supplies and equipment each year, the total running into thousands of dollars. There is no standardization of supplies, and no regulation as to their purchase, except the limit of the appropriations for those departments, nor is there any regulation or classification of salaries paid in the different departments. Under a proper budget system, all this would be regulated. Supplies would be standardized and obtained through a central purchasing head; salaries of clerks and other employees would

conform to some standard of classification, and the state would be established on a business basis.

All this could be worked out without the creation of new high-salaried offices. A few experts would be needed to assist the Governor in gathering information and making necessary investigations, but the cost would be nothing compared to the annual saving which would be made. The State Board of Control already provides the machinery for the purchase of supplies for institutions, and their powers could be extended to cover all purchases for the state.

### INDIGENT AND DISABLED SOLDIERS

The Legislature of 1921 made an appropriation of \$50,000.00 a year for the two-year period for the relief of sick, disabled, or indigent soldiers, sailors and marines of the world war residing in West Virginia, to be disbursed under such regulations as the Board of Public Works might prescribe. The Auditor is a member of a special committee appointed by the Board to investigate and make recommendations concerning such claims as may be presented. I have given a great deal of my personal attention to such claims.

In order that all of this appropriation might be available for the relief of needy veterans the committee so arranged this work that none of the appropriation will be used to pay cost of administration. Hundreds of veterans, unable because of their physical condition to earn a livelihood, whose families were actually suffering because of lack of funds, some of whom were not entitled to federal compensation, and others who were awaiting the progress of their claims through the confusing red tape of the federal bureau, have been granted temporary relief from this appropriation, and, in my opinion, no other appropriation made by the last legislature has been productive of more good, or more heart-felt appreciation.

### BUREAUS OR SUBDIVISIONS

In reorganizing and classifying the work of the office I have separated this work into the following bureaus or subdivisions:

- Accounting Department.
- Claims Department.
- Criminal Charges Department.
- Bond Department.

Corporation Department.  
Taxation Department.  
Land Department.  
Blue Sky Department.  
Insurance Department.  
Fire Marshal's Department.

Each of these bureaus is operated under a responsible head, and while the employees of a particular bureau must first look after their own work, that spirit of co-operation exists which causes them voluntarily to go to the relief of any other bureau in which the work may become temporarily heavy.

### ACCOUNTING DEPARTMENT

The Auditor is the State's official book-keeper and while each department of the state keeps a record of its own financial transactions, this office keeps the controlling accounts for all departments, as well as detailed accounts of all payments into and out of all funds and appropriations. No money can be paid into or out of the state treasury without first passing through this office. Careful accounts must be kept of all appropriations and care must be exercised to see that expenditures are not made in excess of appropriations made pursuant to law. It is the Auditor's duty to decide the proper fund into which any money paid into the treasury shall be credited.

This department is also charged with seeing that proper interest is paid on state deposits.

But few changes have been made in the form of keeping accounts since I came into office. Accounts are generally kept in blank books, and in practically the same manner in which they have been kept since the formation of the state. These methods should be changed to conform to the modern system of accounting. Book-keeping machines are badly needed, and I hope to be able to install them at the beginning of the next fiscal year. During the fiscal year 1922 the state's total receipts from all sources and for all funds amounted to more than \$51,000,000.00, while the disbursements totaled more than \$37,000,000.00, details of which will be found in statement XLIII. For the transaction of business of such magnitude modern business methods must be employed, and the present system can be greatly improved through a small appropriation for the purchase of book-keeping machines.

## CLAIMS DEPARTMENT

It is the Auditor's duty to audit every claim against the State presented to him for payment, and he is required to draw his warrant on the treasury for so much of such claim as he finds to be justly due provided payment thereof is authorized by law and that the appropriation is not exhausted or expired out of which such claim is properly payable. This places upon the Auditor a great responsibility in the payment of claims. The Supreme Court has held that he has a great deal of authority in such matters. When a claim is presented he must decide if there is an appropriation out of which the same can be paid, and if it is properly payable out of the appropriation on which drawn by the department making requisition for its payment.

This department has been entirely reorganized and all requisitions for payment, except for salaries and certain fixed charges, must be accompanied by an itemized statement, without which no claim can be properly audited. In the fire which destroyed the state capitol many of the records of the state departments were destroyed. Had duplicate bills or itemized statements been filed with all requisitions for payment of claims the Auditor's records could have been used to a great extent in replacing the records destroyed. At first some departments objected rather strenuously to furnishing such itemized bills, but this opposition has been overcome and the different departments are now co-operating with this office in this particular.

Payment has been refused of many claims, while some have been paid which would have been rejected except for ambiguous provisions of the law. The purchase of railroad mileage books from state funds has been stopped. It has been necessary to construe some of the laws and appropriations in a broad sense, otherwise some departments could not operate successfully. Frequently appropriations are made for a specific purpose, and no provision made for administration of the appropriation or the law relating to the same. In such cases this office has allowed a part of the appropriation to be used for administration purposes. A striking example of this is that of the Capitol Building Commission created under a section of the general appropriation bill in 1921. The one appropriation made was for buildings and land and no provision was made for the payment of the necessary expenses of the commission in performing its duties. While an

appropriation for buildings and lands is supposed to be limited to the actual purchase of land and the construction of buildings, in order that the Commission could function its current expenses are being paid out of this appropriation. This could be avoided if more care was given to making appropriations for specific purposes.

Prior to 1917 there was practically no limit as to the time of paying claims except the general law which barred claims over five years old. If an appropriation had an unexpended balance at the end of a fiscal year it was used to apply on the expenses of the new year, and if there were bills incurred during the old year in excess of the appropriation for that year, they were paid out of the appropriation for the new year. In 1917 the Legislature passed a law under which any balance in the appropriation at the end of the fiscal year could not be used to pay bills of the new year, though a period of sixty days was given in which bills incurred during the old year just ended could be paid out of this appropriation. Appropriations for buildings and lands do not expire for three years after they are made. The legislature of 1921 went further and included a provision in the general appropriation bill, to the effect that bills could not be incurred during a fiscal year which could not be paid out of the appropriations for that year. Under this provision the appropriation for the fiscal year beginning July 1st, 1922, cannot be used for the payment of bills incurred prior to that time. There are some exceptions but this provision generally applies to state departments and institutions. This is a step in the right direction and makes each year's appropriation take care of the expenses of that year.

There has been an enormous increase in the work of this department within the past few months, largely due to the claims of the State Road Commission. The following figures, showing the number of claims paid, will give an idea of this increased work:

1905 .....	6,607
1910 .....	23,095
1915 .....	65,237
1920 .....	119,202
1921 .....	121,396
1922 .....	137,646

Of the checks issued in 1922 81,475 were the usual state checks,

while 56,171 were on the Workmen's Compensation Fund. When it is considered that each of these claims must be audited and checked to see that there is an appropriation available out of which the same is payable, and that they are proper charges against such appropriations, an idea can be obtained as to the amount of work in this department.

### CRIMINAL CHARGES

The work of this department has more than doubled within the past two years. The department is charged with paying certain claims in connection with the trial of felony cases and the transportation of prisoners. As an aid to the counties the state pays the state's witnesses in felony cases and the jurors for such time as they are trying felony cases. To these original charges have been added the payment of shorthand reporters, the transportation and extradition of prisoners and the printing of the records in certain cases appealed to the Supreme Court. The last legislature added to this the transportation of penitentiary prisoners who may be sent out as a state road convict force. The tendency in recent years seems to be to load as much of the expense of felony cases on the state as is possible. The recent law relating to court reporters is somewhat ambiguous and should be amended.

Unprecedented demands have been made upon this appropriation the past two years because of the large increase in felony cases in the various counties of the state. The result has been that the appropriation for 1922 was exhausted in February, 1922, and at the end of the fiscal year 1922 sufficient claims have accumulated almost to exhaust the appropriation for the year 1923. A deficiency appropriation will have to be made by the next legislature to cover the claims which will accumulate. Figures showing the amount of these claims will be furnished the legislature at its next session and, if not in conflict with constitutional provisions, the legislature should make an appropriation at its initial session to take care of these claims in order that those persons entitled to receive the same will not have to wait longer for their money.

These claims cannot be paid until reported to this office by the clerk of the court. The appropriation for criminal charges is payable upon the order of the various circuit and criminal courts. For the fiscal year 1921 the legislature made an appropriation of \$56,500.00 for criminal charges. This was supplemented in 1921 by a deficiency appropriation of \$35,000.00, which did not prove

sufficient to pay the claims of that year. For each of the years 1922 and 1923 an appropriation of \$85,000.00 was made and indications at this time are that a deficiency appropriation for the current year will be required of more than \$50,000.00, depending upon the number of cases to be tried.

While the law provides for collecting costs from defendants convicted of crime, little or no attempt is being made to collect the same in the different counties.

The last legislature increased the pay of special judges from \$5.00 to \$15.00 per day, but did not increase the appropriation and as a result, a deficiency appropriation will be needed for this purpose for the current year.

### BOND DEPARTMENT

The Auditor is custodian of securities purchased as an investment for The School Fund and for the Workmens Compensation Fund; of securities filed as collateral by state depositories; and of securities deposited by bonding and insurance companies under the insurance laws. He must also keep a careful record of Virginia Debt and State Road Bonds.

A modern system of records has been installed, showing the securities of which the Auditor is custodian, and the dates of maturity and interest periods. There is no suitable place in the office for the keeping of these securities and they are kept in safety deposit vaults in various banks. I am advised that in the plans for the new capitol provision is made for suitable vaults in which to keep such securities. The Auditor frequently has a large amount of such securities on hand which the various investment boards expect to purchase, but have not paid for.

On June 30th, 1922, securities were in the custody of the Auditor as follows:

The School Fund .....	\$1,000,000.00
Workmen's Compensation Fund .....	9,406,100.00
Collateral on Depository Bonds .....	335,000.00
Deposits by Insurance and Bonding Companies .....	3,742,088.94
Virginia Debt Bonds In Escrow .....	569,600.00
	<hr/>
Total .....	\$15,052,788.94

## CORPORATION DEPARTMENT

The Auditor is attorney-in-fact for all foreign corporations admitted to transact business in West Virginia and for all nonresident corporations chartered under the laws of this state, and as such accepts service for these corporations in legal proceedings. This department keeps a record of all corporations chartered under the laws of the state, or transacting business therein, and collects the corporation license tax and statutory attorney fees from the same. These corporations number about 8,000. The records of this department are now being revised in order that they will be complete and include all the corporations since the state was formed. The collections in this department amount to more than \$800,000 per year.

Corporations are chartered and admitted through the office of the Secretary of State, and any change as to their corporate standing is handled through the same office. The Secretary of State collects the corporation license tax for the following year when corporations are chartered or admitted in the months of May and June. This law should be changed to include the additional taxes on companies increasing their capital stock during those months, as at that time the Auditor has already, pursuant to law, sent out notices of taxes due for the coming year. No corporation should be permitted to increase or decrease its authorized capital stock or file any other papers with the Secretary of State changing its status when such corporation is delinquent in the payment of its license tax.

No decrees have been entered to dissolve delinquent corporations for several years past, but I am advised by the Attorney General that this will be done in the immediate future. This will greatly relieve our records of dead corporations.

Under a recent ruling of the Attorney General, Sections 140 to 145, of Chapter 32, of the Code, relating to foreign telegraph, telephone and express companies, does not apply to any companies now doing business in this state and no taxes will therefore be collected under these sections.

## TAXATION DEPARTMENT

This department has charge of collecting taxes on public service corporations, and makes settlements with the various county officers collecting taxes to be paid into the State Treasury.

After assessing public service corporations for purposes of taxation, the Board of Public Works certifies such assessments to the Auditor, who in turn certifies them to the county courts of the various counties for apportionment to the districts and municipalities in which the property is located. These assessments are then returned to the Auditor, and as soon as he receives the rates of levy in the various counties, districts and municipalities, the taxes are figured and notices sent to the companies. If payment of such taxes is made on or before January twentieth, following, a discount of two and one-half per cent is allowed; otherwise, a penalty of ten per cent is added and the taxes are certified to the sheriffs of the various counties as delinquent. The Auditor collects these taxes for the counties, districts and municipalities as well as for the state, and the same are paid immediately after collection to the political sub-divisions entitled to receive them. The custom of holding these taxes in the State Treasury for a period has been changed.

Last year these taxes amounted to over seven million six hundred thousand dollars (\$7,600,000), of which, only twenty eight thousand (\$28,000) were delinquent, and most of this delinquency was with a single company. This department also collects the special license fee levied for the Public Service Commission.

Much improvement has been shown by the various county officers in making settlements with this office of taxes collected by them for the state. When I came into office there were various old claims against sheriffs, assessors and county clerks, some of whom had retired from office without making settlement of the amounts due from them. A great deal of trouble was experienced at first in getting them to pay any attention to my request for settlement. Practically all of these claims have now been adjusted and without the necessity of suits being brought.

The sheriffs must settle with this department for state taxes, license taxes, fines, etc., collected by them. Assessors must report on capitations collected, and must pay to the Auditor the amount due the state from this source. County Clerks must report on all licenses issued by them to be collected by the sheriffs, and must report the number of marriage licenses issued and pay the amount due the state from this source. Circuit Clerks must report on fines assessed by the court and collected by the sheriff, and on licenses issued to carry deadly weapons.

Many changes have been made in the system of records in this

1824  
department.  
adopted of  
prior to the  
results of such  
officers are  
tances.

While the law does not require it, the plan has been sending notices to these county officers a few days before the time such reports are due to this office, and the results of such notices have been most encouraging and the county officers are becoming prompt in making their reports and remittances.

Under a general law it becomes the duty of the Auditor to collect claims due the state; most of these come under the Taxation Department. With the consent of the Governor, the Auditor is authorized to appoint state agents to collect claims due the state. Since I came into office but one such appointment has been made. Ben H. Ashworth was appointed a state agent to collect a forfeited bond in the case of the State vs. Tony Stafford, pending in the Circuit Court of Raleigh County, for which he was authorized to receive a commission of five per cent.

In my opinion, a great many bonds have been forfeited in the various courts of the state which have not been collected. It is my intention, where I find it necessary, to appoint state agents in order that such amounts as are due the state may be collected.

### LAND DEPARTMENT

In the Land Department is kept, as far as possible, a complete record of the lands within the State. It is one of the most important branches of any state office, and the work therein necessitates extreme care, as a clerical error, unless corrected in due time, might cause an honest taxpayer to lose his home through no fault of his. Yet, the records show inexcusable carelessness on the part of some county officials the past few years, and as a result, many sales of lands for delinquent taxes are, in my opinion, of doubtful legality and validity because of improper certificates or lack of reports.

Under the law the Auditor is charged with the duty of administering the delinquent land statutes, beginning with the return of property delinquent for non-payment of taxes by the sheriff, to its final forfeiture and disposition by redemption or sale by decree of the circuit court. There is contained within the vaults of this department a complete record of all assessments and delinquencies dating from the year 1782. The files also contain a record of land patents which include those issued by the King of England, the Commonwealth of Virginia and this State. How-

ever, this department deals almost exclusively with delinquencies, and, since there is no provision authorizing the correction of records after certification to the Auditor by the county court, accuracy in the preparation of these records is of utmost importance.

The law provides that the sheriff shall make up his delinquent land list the first Monday in June, and he usually makes his settlement with the county court at the levy term, which is the fourth Tuesday in August. As soon as practicable after this list is approved by the county court, it is certified to the Auditor. It is usually late in September when the list reaches this office. Prior to the past year the custom had grown up under which a sheriff refused to accept taxes after he had made up his delinquent list early in June. He cannot accept them after his settlement with the county court. As a result, a delinquent taxpayer could not pay his taxes from early in June until late in September when the lists reached the Auditor. Under an opinion of the Attorney General to this department last year, the sheriff must accept such taxes up to the time the county court approves his delinquent list. The taxpayer may redeem his land at this office at any time from the date the delinquent list is received until November of the year following that in which they were returned delinquent. On November first, the Auditor certifies to the sheriff for sale all lands remaining unredeemed. And here is a physical impossibility in the law; the Auditor must allow redemptions to November first, and on that day must certify those lands remaining unredeemed to the sheriffs of the fifty-five counties. There should be a period of, say, 30 days, for the Auditor to correct his lists and send them out to the sheriffs.

In some counties there has been unnecessary delay in getting the county officials concerned to send in the delinquent lists. Frequently they have to be returned for correction or completion and execution of proper certificates. Such lists will not be accepted by this office unless they conform to the requirements of the law.

After the sheriff's sale of delinquent lands for taxes, a report of such sale is forwarded to this office. Such lands as were sold to the State may be redeemed at this office within a year after such sale; otherwise, they become forfeited to the State, and are certified to the Commissioner of School Lands, who brings suit to sell the same for the benefit of the State. Redemption

may then be made through the circuit court. The Auditor has no authority to permit redemptions after forfeited lands are certified to a commissioner of school lands.

The circuit court appoints commissioners of school lands and this office has no authority to compel them to report. But few reports are received from them at this office, and some corrective legislation is needed along this line. The law should also be amended so as to permit the delinquent lists to be corrected after being forwarded to this office upon the certificate of the county clerk, under the seal of the county court, in order that clerical errors made prior to the time the lists are certified may be corrected.

Under the law the Auditor has authority to return the personal property delinquent lists to the sheriff, or a constable, for collection in case he believes there are taxes in such lists which can be collected. In recent years this provision of law has seldom been invoked. Within the past year this office has requested the county courts to examine such lists carefully, and if, in their opinion, there were sufficient taxes which could be collected to warrant the undertaking, such lists have been returned.

The assessors are required to forward to the Auditor each year copies of their land books, and the annual increase from this source and from the various delinquent lists, is about one hundred land books. This necessitates a large vault space which has been lacking but which, I am advised, will be provided for in the new capitol.

Many of the old land records in this office have been rendered incomplete through use, and, unless immediate steps are taken to preserve and protect them, valuable records will be destroyed. Some of them will have to be recopied and rebound, or reproduced in some other way, and an appropriation is needed for this purpose. In my opinion, the photostat process will be more satisfactory and cheaper, and estimates of the cost of this work will be furnished the Budget Commission.

The last legislature made an appropriation for an index to land grants, and this work is being rushed to completion.

In my opinion, an injustice was unintentionally done the newspapers of the State by the last legislature in making an appropriation to pay the cost of the publication of sale of delinquent lands. The appropriation follows the language of similar appropriations in years past, and limits the amount to be paid by the

Auditor for such publication to seventy-five cents for each tract of land. In limiting this appropriation, the legislature apparently overlooked the provisions of Chapter 153, Acts 1921, providing that such publication shall be made in two newspapers, and also the provisions of Chapter 95, Acts 1921, increasing the rate of pay for publishing advertisements required to be made by law. Under the old law such lists were only published in one newspaper, and the legal rate for publishing notices was lower, and had not this limit been put in the appropriation bill the newspapers would have been paid at the legal rate. A ruling of the Attorney General in the matter was obtained by this office, and it was held that under the limited appropriation, if such publication was made in two newspapers, each newspaper could only be paid at the rate of thirty-seven and one-half cents per tract. No newspaper could afford to publish these notices at such a low price. So far as has been reported to my office, no newspaper refused to publish these lists because of the importance of such publication, and, in my opinion, a deficiency appropriation should be made by the next legislature sufficient to pay these newspapers the difference between the amount received by them and the amount they would have received had such limitation not been placed in the appropriation bill. The same thing will occur in the publication of these lists for the fiscal year 1923, and this office will compile such figures as are necessary for the legislature to know just what will be due the newspapers at the legal rate.

### **BLUE SKY DEPARTMENT**

As a result of a small appropriation by the legislature of 1921, and amendments increasing the fees for filing applications and licensing salesmen, the Blue Sky Department has been reorganized and has done efficient work the past year. Prior to that time the work had been considered as a part of the Insurance Department, and the fees arising therefrom were not sufficient to pay for the actual time consumed in examining statements filed by companies desiring to qualify for the sale of their securities.

This department has charge of the enforcement of the law regulating the sale of speculative securities in the state. The law is comparatively new and many are not familiar with its requirements. Before any corporation, association, partnership or company whose stock is of a speculative nature can dispose

of its securities in this state, a permit must be granted by the Auditor, who is given a great deal of discretion in deciding whether or not such securities are speculative. The statute automatically makes any stock speculative when the officers of the company refuse to furnish the Auditor such information as he may request concerning such stock.

The purpose of the department is to prevent the sale in the state of stock in wildeat enterprises in which the stockholder would not only have little or no chance of receiving any dividends on his investment, but would most likely lose the principal he invests. The statute provides a heavy penalty for the sale of stock in fraudulent schemes. While an attempt is made to drive out and prevent the sale of worthless securities, the promotion of legitimate enterprises is encouraged. It is surprising the amount of worthless securities that have been sold the people of the state within the past few years, running into millions of dollars, practically all of which have been sold in violation of the law. Southern and southwestern oil companies have been the worst offenders, and hundreds of residents have been literally robbed by get-rich-quick schemes of this character only to awaken a year or two later to the realization that their money is hopelessly lost. Usually by the time this department is advised of such fraudulent sales, the perpetrators are operating under some other name in another part of the country. As a result of a vigorous campaign against the sale of these worthless securities the past year, scores of salesmen have been driven from the state and others have been afraid to enter. Several thousands of dollars have been returned to subscribers who were induced to purchase through misrepresentation, and a number of arrests have been made.

The Blue Sky statute is rather loosely drawn and needs strengthening, though a recent decision of the Supreme Court of Appeals interprets the law to a great extent, and has materially assisted its enforcement. In the beginning of my term, it required considerable effort to get the support of some of the prosecuting attorneys in enforcing this law, but they are now more generally co-operating with this department.

The law limits the commission on all stock sales to ten per cent of the value of the stock sold. This is hardly sufficient in some instances. The law should generally be amended along the lines of the Illinois law on the same subject.

Many worthless securities are sold in this state through the

use of the mails and newspaper advertisements, over which this department has no control. This will largely be overcome if the Dennison Bill, now pending in Congress, is enacted into law.

### INSURANCE DEPARTMENT

The Auditor is Ex-Officio Insurance Commissioner, and as such, must supervise the enforcement of the insurance laws of the state, including the examination and regulation of all companies doing business in the state and the licensing of agents for such companies. The insurance laws cover fire, life, casualty and miscellaneous companies. A separate annual report is made covering the detail work of this department.

Insurance in all its branches is a subject for almost a life-time study, and a proper administration of the insurance department requires a technical knowledge of insurance matters. There is no good reason why its administration should be assigned to the Auditor, who is elected by the people, and who usually lacks this technical knowledge. In most states the Insurance Department is a separate and distinct office, and, in my opinion, should be in this state.

The people of the state are generally opposed to the creation of new offices, and rightly so. No new department adding additional expense should be created unless there is immediate need for the same. However, the office of insurance commissioner can be created without this additional expense because the state already has a bureau or department under a separate head, having charge of the administration of the Workmen's Compensation Fund, which is merely a branch of the insurance business. In practically all states having a separate insurance department, the Insurance Commissioner has charge, also, of the compensation department. I, therefore, recommend that the office of Insurance Commissioner be created, and that the law relating to the compensation department be so amended that the Insurance Commissioner will assume the duties now performed by the State Compensation Commissioner. If this is done, all matters relating to insurance will then be under one head where, in my opinion, they properly belong.

Since its creation, the insurance department has largely been one of record, rather than one of regulation. The department should be expanded and enlarged in accordance with the general

increase in the insurance business. While the insurance laws are generally good, some amendments could be made to advantage; yet, we do not want insurance laws which will interfere with legitimate insurance business. Too much legislation has proved disastrous in some states, while too little would be just as dangerous. We do not want an insurance department run by the insurance companies, nor one run by the agents. We want a department with just sufficient power and authority to bring about that happy medium under which all safe companies will want to do business in the state, and so that they will make a reasonable profit on such business; under which the agents will make a comfortable living, and under which the insured public will get insurance which is safe beyond question, and will pay a reasonable price for it.

The law should be amended so as to extend the field to include those classes of insurance now being generally written but not included when the law was enacted. The standard policy form for fire insurance should be written into the law. Some minor amendments tending to clarify certain provisions of the law would make the work of the department easier.

### **FIRE MARSHAL'S DEPARTMENT**

The State Fire Marshal is appointed by the Insurance Commissioner and the department is maintained by a special tax on fire insurance companies doing business in this state. The Fire Marshal has charge of all inspections of fire hazards within the state, with authority under the law to condemn buildings and have them removed when they become a fire menace. He makes investigations of all suspicious and incendiary fires. The department works in conjunction with municipal fire departments in making inspections and with the general police officers of the state in investigating cases of arson.

This department has been reorganized and the criminal and inspection work separated. An educational campaign has been carried on with a view to preventing fires due to carelessness. Statistics relating to fire losses are being compiled and at the end of the next year the department will make a separate report.

Under the law at present the special tax for this department is imposed upon fire companies covering all their business in the state. This law might be amended so as to limit this tax to their

fire insurance business only.

The following paragraphs from the report of the State Fire Marshal for the year ending June 30th, 1922, are given for your information:

“During the above period, property having a sound value of \$11,504,264 was attacked by one thousand and five fires, which resulted in a loss of \$4,225,626, \$2,386,075 of which was real property, and \$1,839,551 personal property.

“Six hundred and seven of the fires resulted in total loss, and three hundred and ninety-eight in partial loss, of the property attacked.

“The department made 2,199 inspections of fire hazards and condemned 117 buildings. Investigations were made of 95 suspicious and incendiary fires, which resulted in thirty-three indictments for arson, with ten convictions and consequent sentences to the penitentiary, totaling forty-nine years. Many of the indictments secured have not yet been tried by the courts. Thirty-seven deaths from fire occurred in the state within the fiscal year.

“A classification of the property destroyed discloses that 556 dwelling houses, 61 barns, 42 garages, 26 manufacturing plants, 25 restaurants, 150 stores and 22 school houses were lost by fire; and I regard the fact that no lives were lost in the school house fires as due to the interposition of Divine Providence.

“The Fire Marshal's department distributed 50,000 copies of a text book on fire prevention during the fiscal year to the schools of the State, and kept a lecturer before the schools and civic organizations talking fire prevention. The fact that 90 per cent of the fires which occur are due to carelessness is proof positive that through education alone must this terrible loss of life and property be overcome.

“The loss of 22 school houses during the last term of school is responsible for an aggressive school house inspection being inaugurated and to date, inspections and recommendations for elimination of fire hazards in school houses of the state which show an enrollment of 62,000 pupils have been made.

“The law should be amended in such a way as to expedite the compliance with orders of the Fire Marshal's department which relate to the demolition of old dilapidated buildings which constitute fire hazards and which jeopardize surrounding property. Also serious consideration should be given by the legislature to the enactment of a law imposing certain liabilities on persons,

firms and corporations for the cost of extinguishing fires which occur through criminal intent or wilful negligence, or failure to comply with any law, ordinance or other lawful regulation or order for the prevention of fire.”

## IN MEMORIAM

**PATRICK HENRY ANDERSON**

**OF**

**TYLER COUNTY**

**Born September 11, 1864.**

**Died September 5, 1921.**

**A trusted and efficient employee.**

Respectfully submitted,

Auditor.

Department of State Tax Commissioner

FOR INSPECTION AND SUPERVISION  
OF PUBLIC OFFICES

Seventh Annual Report

AUDIT OF THE FINANCES

OF

State of West Virginia

**Showing in Detail the Sources of Revenue and the Pur-  
poses of Expenditures for the Fiscal Year  
Ending June 30, 1921.**

1920-1921

TRIBUNE PRINTING CO., CHARLESTON, W. VA.

## LETTER OF TRANSMITTAL

---

STATE OF WEST VIRGINIA,  
OFFICE OF STATE TAX COMMISSIONER,  
CHARLESTON, OCTOBER 30, 1921.

*To His Excellency, EPHRAIM F. MORGAN,  
Governor of West Virginia.*

SIR:—In compliance with the provisions of Chapter 40, Acts of the Legislature, Regular Session 1915, I herewith submit to you the Seventh Annual Report covering Financial Transactions of the State of West Virginia for year ending June 30, 1921.

Your attention is called to pages 13 to 17, inc., of this report, showing both actual and estimated condition of the "State Fund General Revenue".

Respectfully submitted,

WALTER S. HALLANAN,  
*State Tax Commissioner, Ex-Officio Chief  
Inspector of Public Offices.*

## Letter of Chief Accountant

---

HON. WALTER S. HALLANAN,  
*Chief Inspector and Supervisor of Public Offices.*

SIR:

I have the honor to report that in compliance with your instructions and the provisions of an Act of the Legislature of West Virginia entitled: "*An Act to Provide for an Annual Report of all Financial Transactions of the State \* \* \**," (Acts Regular Session 1915, Chapter 40), I proceeded to audit the finances of the State of West Virginia and report thereon showing in detail the receipts and disbursements for year ending June 30, 1921, and was assisted in compiling the facts contained in this report by C. A. Wood, H. C. Paxton, W. E. Whiteman and W. E. McKnight.

Briefly stated, the cash receipts and disbursements of the State for the year ending June 30, 1921, are as follows:

The School Fund.....	\$ 994,300.00
Workmen's Compensation Fund.....	9,265,300.00
<b>Total.....</b>	<b>\$10,259,600.00</b>

NOTE—See page 380 for list of bonds and securities owned by State.

NOTE—The securities owned by the State account investment of "The School Fund" cannot be disposed of except for reinvestment and the income from same must be credited to the "General School Fund."

The securities owned by the State account investment of "Workmen's Compensation Fund" cannot be used for any purpose but for the payment of benefits awarded by the Compensation Commissioner.

*Explanation of "General School Fund"*

The "General School Fund" can be expended only for the payment of appropriations for salaries and expenses of the State Department of Free Schools, compensation of Institute Instructors per diem and expense of State Board of Education, expense of Uniform Examinations, salaries of County Superintendents, cost of Certification and Publishing of Delinquent Taxes, and distribution of school moneys to the several school districts of the State.

*Explanation of "The School Fund"*

"The School Fund" cannot be expended, but can only be invested, the income from same to be credited to the "General School Fund."

*Explanation of "Workmen's Compensation Fund"*

The "Workmen's Compensation Fund" can be expended only for the payment of benefits awarded by the Compensation Commissioner, and for the cost of administration of the fund.

*Explanation of "State Fund—General Revenue"*

The "State Fund—General Revenue" can be expended only for the payment of appropriations made by the Legislature, which are payable out of the "General Revenue."

*Explanation of "State Fund—Special Revenue"*

The "State Fund—Special Revenue" can be expended only for the payment of appropriations which are payable on the requisitions of the State Board of Control out of money collected for the specific purpose and of appropriations which are payable on requisition of the Public Service Commission, Tax Commissioner, State Department of Health, Adjutant General, Commissioner of Agriculture and State Auditor, out of money collected for the specific purpose.

*Explanation of "State Fund—Moneys Belonging to Counties, Districts and Municipalities"*

The "State Fund—Moneys belonging to Counties, Districts and Municipalities" can be disbursed only for payment to counties, districts and municipalities, the amount of county, district and municipal taxes collected by the State Auditor on account of delinquent lands and public service corporations. At the time of collecting State tax on delinquent lands and on property assessed by the Board of Public Works the State Auditor collects county district and municipal taxes on said property.

*Explanation of "State Road Fund"*

The "State Road Fund" consists of the proceeds of all state license taxes collected upon automobiles, motor or steam driven vehicles, and on chauffeurs or operators, and in addition thereto, the amount derived from the sale of \$50,000,000. state road bonds, authorized to be issued by the constitution, \$15,000,000. of said \$50,000,000. were sold in the fall of 1921 and placed in said fund. The \$15,000,000. can be used only for the construction or reconstruction of state roads, the balance of the fund can be expended only for the purpose of paying the expenses of the State Road Commission, as appropriated by the legislature for the payment of interest on and principal of outstanding road bonds, and for construction, reconstruction, and maintenance of state roads.

## ACTUAL CONDITION "STATE FUND—GENERAL REVENUE" JULY 1, 1921

The "State Fund—General Revenue", July 1, 1921, included \$485,809.39 of "1922 General Revenue" or revenue for the year ending June 30, 1922, which was collected in advance. Salaries and other expenses aggregating \$242,231.07 incurred prior to July 1, 1921, were not paid until after said date, hence these expenditures would not be shown by the fund on July 1, 1921.

Approximately \$880,000.00 of "1921 General Revenue" or revenue belonging to the year ending June 30, 1921, was uncollected July 1, 1921, hence this revenue would not be included in the fund on July 1, 1921.

Therefore, to determine the actual condition of the "State Fund—General Revenue" July 1, 1921, there should be added to the "Cash Balance in the Fund July 1, 1921..... \$ 198,290.33

1921 revenue uncollected and not included in fund July 1, 1921.....	880,000.00
Total.....	\$ 1,078,290.33

And there should be deducted from the balance the following:

1922 revenue collected in advance and included in fund July 1, 1921.....	\$ 485,809.39
1921 expenses paid after July 1, 1921.....	242,231.07
§1921 Appropriations for Buildings and Land unexpended...	272,655.47
§1921 Appropriations for other purposes unexpended.....	179,770.89
Total to deduct.....	\$ 1,180,466.82

Leaving as an actual deficit in the State Fund—General Revenue July 1, 1921..... \$ 102,176.49

### *Former Year Appropriations Unexpended*

Appropriations carried over from former years which are available for expenditure during the year ending June 30, 1922, are shown by the following table.

Building and Land:

West Virginia University.....	\$ 122,801.30
Experiment Station.....	8,440.24
Potomac School.....	120.33
Fairmont Normal School.....	62,557.98
Deaf and Blind School.....	29,792.87
Colored Deaf and Blind School.....	20,001.75

Weston Hospital.....	2,500.00
Huntington Hospital.....	25,564.85
Colored Hospital for Insane.....	876.15
Total Buildings and Land	\$ 272,655.47
<b>Sundry Purposes:</b>	
Temporary Capitol and Equipment.....	\$ 17,634.88
Wrecking Old Capitol building.....	19,032.15
Auditor's Office—Land Grant Index.....	3,500.00
Oil and Gas Tax Transportation Litigation.....	17,376.69
Suit: Pa. and Ohio vs. W. Va.....	25,366.96
Reprinting 9 vol. Sup. Court Reports.....	29,400.00
Widow of Chas. Walker.....	1,100.00
Printing and Binding.....	66,360.21
Total Sundry.....	\$ 179,770.89
 Grand Total.....	 \$ 452,426.36

Chapter 5 of Acts 1917 provides that every appropriation except for Buildings and Land remaining unexpended at the end of the year shall cancel, except all appropriations remain in effect for 60 days for the payment of former years' bills. Appropriations canceled under this act aggregated \$77,434.70. (see page 403 for itemized list. Appropriations for Buildings and Land remain in effect for three years from the date of passage of appropriation act.

Note—The above amount of \$272,655.47 is amount carried over and actually expended. The amount canceled in 1922, \$98,751.99, under the three year expiration law has been eliminated.

The appropriations shown above designated for sundry purposes were made available by the Legislature for the year 1921, with a special provision that the same should continue in force until the purposes of the appropriations had been carried out.

### ESTIMATED CONDITION OF "STATE FUND—GENERAL REVENUE" JUNE 30, 1922

Actual Deficit in "State Fund—General Revenue—  
July 1, 1921..... \$ 102,176.49

#### *Disbursements*

Estimated expenditures out of General Revenue for year ending June 30, 1922.

Disbursements by State Board of Control:

Salaries and current expenses...	\$ 2,586,300.00
Repairs and improvements.....	348,500.00
Buildings and Land.....	1,372,282.46

Total State Board of Control. \$ 4,307,082.46

Department of Public Safety expenses.....	450,000.00	
Appropriation to General School Fund.....	300,000.00	
Capitol Buildings and Land....	750,000.00	
Governor's Mansion and Grounds.	82,500.00	
Repairs and Improvements.....	15,000.00	
Expenditures by all other departments and commissions.....	1,554,400.00	
		<hr/>
Grand total estimated expenditures (see page 28 for itemized list).....		\$ 7,458,982.46
		<hr/>
Total estimated disbursements including deficit at beginning of year.....		\$ 7,659,910.94

*Receipts*

Estimated "General Revenue" receipts for year ending June 30, 1922 (see page 27 for itemized list).....		6,107,000.00
		<hr/>
Estimated Deficit in "State Fund—General Revenue" June 30, 1922.....		\$ 1,552,910.94

*Appropriations Unexpended June 30, 1922*

The above estimate provides for the expenditure of the entire amount appropriated for the year ending June 30, 1922. (except to General School Fund.) Hence on the basis of the above estimate no appropriations would remain unexpended June 30, 1922.

The appropriation to the General School Fund of \$300,000.00, shown above, for the current year is the amount necessary to meet the requirements of said fund. The appropriation authorized for this purpose is \$1,000,000.00, however, only \$300,000.00 will be required for the current year due to the fact that the assessment year was changed to January 1st, thereby permitting earlier payments of capitation taxes into the Fund than heretofore, and due to the fact of abnormal receipts for the present year on account of complete and earlier settlements with the assessors of capitation collections.

*THE STATE'S FINANCIAL CONDITION*

It will be seen from the foregoing statements that the "State Fund—General Revenue" on June 30, 1921, showed a deficit of \$102,176.49. This deficit is much less than the estimated deficit, for the reason that the state's income from excise tax on corporations amounted to more than double the estimate, and that the state received an additional amount from this source account change in Act by the 1921 Legislature, which required corporations to pay the tax accruing on business during the six months ending June 30, 1921. The tax accruing for this period is treated as revenue belonging to the year ending June 30, 1921, hence reducing the deficit as of June 30, 1921. The Act of the Legislature of 1921 repealed the Excise Tax Law on all business transacted after June 30, 1921, and enacted in lieu thereof what is commonly known as the "Gross Sales Tax Law." The State's revenue from the last year from inheritance tax and tax on insurance, also exceeded the estimate and helped in further reducing the estimated deficit.

It will be seen from the foregoing statement, that if all appropriations are expended which are authorized to be expended for the year ending June 30, 1922, that it is estimated the state will finish the year with a deficit in "State Fund—General Revenue" of \$1,552,910.94.

In estimating the receipts for the year ending June 30, 1922, the amount to be received from the Gross Sales Tax law is estimated at \$2,500,000. This law is entirely new and it is impossible to estimate closely the revenue to be received from this source, It is believed, however, that the revenue will not exceed the estimate. The volume of business so far this year is much below normal; in normal business conditions the act probably would produce a million or more in excess of the estimated amount for the current year. The tax is dependent entirely upon the volume of business.

The deficit June 30, 1922, however, will be less than \$1,552,910.94, for the reason that an effort will be made to delay the expenditure of appropriations which can be postponed, until such time as the state has sufficient revenue to meet all of its requirements.

Included in the appropriations available for expenditure during the year ending June 30, 1922, are appropriation for capitol buildings and land—\$750,000.00 Governor's Mansion and grounds—\$82,500.00; buildings and lands for institutions under the control of the State Board of Control—\$1,372,282.46, making a total for buildings and land of \$2,204,782.46. A part of the buildings are under construction and must of necessity be completed.

However, it must be kept in mind that appropriations for buildings and land carried over into the next year are, under the law, available for expenditure and must be taken care of together with the appropriations for the next year. Appropriations for

buildings and land remain in effect and are available for expenditure for three years from the date of the passage of the Appropriation Act, hence, the appropriations for buildings and land will be available for expenditure until May, 1924. Many of the appropriations for buildings and land are for the purpose of taking care of present needs rather than anticipating future wants, hence, these expenditures can be postponed temporarily but not indefinitely.

The Legislature of 1919 enacted a law providing a special privilege tax for the transportation of oil and gas by pipe lines. The constitutionality of this law was attacked, and the Circuit Court of Kanawha County held the act to be unconstitutional. The Supreme Court of Appeals of this State held the act to be constitutional insofar as it applied to intra-state business. The United States Supreme Court reversed the Court below. The construction of the opinion of the United States Supreme Court is now pending before the Supreme Court of Appeals of this State to determine if the entire act is invalid, or if the act is valid insofar as imposing a tax on oil and gas both transported and consumed within West Virginia. If the entire act is not held to be invalid the State probably will receive between \$100,000. and \$200,000. The 1921 Legislature repealed the act, hence, the revenue received will be only for the two years that the act remained in effect. At the time the act was passed, it was intended to apply the tax to both intra-state and inter-state business. It was estimated that it would produce over a million dollars revenue annually, and the appropriations made by the Legislature were made on that basis. The Legislature also used \$1,062,867.16 of the General Revenue of the State to make the cash payment on the Virginia Debt; no part of which was replaced by Special Revenue. This payment eliminated the State's Surplus and left nothing with which to meet emergencies. A large part of the revenue of the State has been required to make up these losses, contributing at least in part to the State's present financial condition.

#### *Virginia Debt Fund*

Chapter 10, Acts 1919, Extra Session, creates a Virginia Debt Sinking Fund, for the purpose of paying the principal and interest on \$13,500,000.00, 3  $\frac{1}{2}$  % bonds, dated January 1, 1919, issued as a part payment in settlement of the Virginia Debt. The balance of the payment being made in cash, \$1,062,867.16, out of the State Fund—General Revenue. The Act provides that West Virginia shall retain \$1,133,500.00 of the \$13,500,000.00 of bonds, until it is ascertained by the commonwealth of Virginia and certified to the state of West Virginia, the amount of said reserved bonds that West Virginia is entitled to retain in escrow representing lost, destroyed or undeposited Virginia deferred certificates. The Circuit Court of the City of Richmond found said amount to be \$861,225.00; thereupon the State of West Virginia reduced the amount of \$1,133,500 by delivering an additional amount of \$272,275.00.

The amount of \$861,225 is to be held by West Virginia in escrow until Virginia deferred certificates, which they represent, have been filed with the commonwealth of Virginia and certified to the State of West Virginia. The commonwealth of Virginia filed prior to July 1, 1921 certificates calling for delivery of escrow bonds, amounting to \$275,100.00. Any part of the \$861,225.00 remaining at the end of 20 years shall be the property of West Virginia. The act provides that a direct levy shall be laid sufficient to pay the interest on the bonds and 1-20 of the principal, annually. The first levy laid under this act was the 1919 levy of 10 cents.

The law provides that at least 1-20 of the total issue of the bonds shall be retired annually, beginning with the year 1919. If the Board of Public Works fail to purchase the required amount, then the required amount shall be retired by lot.

No bonds were retired during the first year, account the bonds being undistributed in the hands of the Virginia Commission; hence, the bonds were not available for purchase.

Distribution to the owners was not made by Virginia account litigation pending the courts of Virginia. The State has purchased \$2,030,000.00 of West Virginia bonds, so as to meet the annual retirement requirements for the years 1919, 1920, 1921 and a part of 1922. These bonds were purchased at an average price of approximately 81.

A part of the levy laid for any one year is not received by the State, until the following year; hence, a surplus should be maintained to cover the revenue in process of collection and to permit the Board of Public Works to anticipate the required purchase of bonds. Doubtless, a saving can be made in the purchase of bonds, if funds are available to make purchases throughout the year, instead of the required amount at the end of the year.

The estimated receipts and liabilities of the Virginia Debt Fund for the year ending June 30, 1922, are as follows:

*Receipts*

Estimated revenue, 10 cent direct levy . . . . . \$ 1,595,000.00

*Liabilities*

Jan. 1, 1922, interest on bonds . . . \$ 200,000.00  
 July 1, 1922, interest on bonds . . . 200,000.00  
 1-20 principal of bonds . . . . . 675,000.00

Total . . . . . \$ 1,075,000.00

Estimated Surplus July 1, 1922, Virginia Debt  
 Fund . . . . . \$ 520,000.00

It will be seen from the above statement of receipts and liabilities, that the State will have funds with which to purchase sufficient bonds to meet the requirement for the year 1922, and at least the greater part of the requirement for the year 1923.

*State Levies*

As a part of the State's General Revenue for the year ending June 30, 1922, a 1921 State Levy of 10 cents was laid.

In addition to the General State levy of 10 cents, a 10 cent 1921 Virginia Debt levy was laid.

*Expenditures for Permanent Improvements*

The following table shows expenditures by the State out of "General Revenue" for Buildings and Land, Repairs and Improvements, during the last twelve years:

Year	Amount
1907-1908 . . . . .	\$ 93,106.25
1908-1909 . . . . .	73,947.59
1909-1910 . . . . .	123,657.40
1910-1911 . . . . .	183,690.50
1911-1912 . . . . .	184,185.37
1912-1913 (9 months) . . . . .	63,745.32
1913-1914 . . . . .	159,140.78
1914-1915 . . . . .	243,409.19
1915-1916 . . . . .	650,750.39
1916-1917 . . . . .	330,269.10
1917-1918 . . . . .	490,537.65
1918-1919 . . . . .	333,506.23
1919-1920 . . . . .	521,146.58
1920-1921 . . . . .	654,659.77
Total . . . . .	\$ 4,105,752.12

*Percentage Classification*

The total amount disbursed by the State for all purposes (except investment of the "School Fund", disbursements from the "Workmen's Compensation Fund," disbursements of taxes collected for counties, districts and, municipalities) during the year ending June 30, 1921, was \$4,898,166.88 from "General Revenue" and \$6,144,315.50 from "Special Revenue," total \$11,042,482.38. Briefly stated, this amount was expended from appropriations for the following purposes:

For What Purpose	Amount expended	Percent of total amount expended
Education.....	\$ 2,990,642.48	\$ 41.58
Boy's and Girls' Industrial Schools and Schools for Deaf and Blind.....	170,349.36	2.38
Hospitals.....	1,075,503.08	14.95
Children's Home.....	47,802.43	.66
Courts and Law Library.....	200,681.35	2.79
Criminal Charges.....	91,854.84	1.28
Militia.....	1,002.70	.01
West Virginia Penitentiary.....	284,204.92	3.94
Maintenance Capitol Buildings and Grounds.....	271,993.57	3.78
State Elective Offices and Departments.....	321,989.33	4.48
State Appointive Offices, Commissions and Boards.....	618,087.06	8.59
Insurance on Public Buildings....	37,147.99	.52
Agricultural Experiment Station..	177,838.86	2.47
Geological and Economic Survey..	52,187.99	.72
Printing, Binding and Stationery..	196,651.60	2.73
Civil Contingent.....	13,416.05	.19
Department of Public Safety.....	211,925.69	2.95
Community Packing House.....	15,519.44	.22
Miscellaneous Purposes.....	46,813.42	.65
Extraordinary Purposes.....	49,703.49	.69
West Virginia Legislature.....	318,088.13	4.42
<b>Total.....</b>	<b>\$ 7,193,403.78</b>	<b>100.00</b>
§Virginia Debt.....	\$ 2,087,741.16	
§State Road Commission.....	1,747,757.78	
§State Council of Defense War Fund.....	8,032.00	
§War Training (Federal).....	5,547.66	

Grand Total..... \$11,042,482.38

§The last 4 items are not included in the percentage calculations, being new expenditures not common to former years.

*Per Capita Classification*

As shown by the preceding table the total amount expended by the State during the year ending June 30, 1921, from both "General Revenue" and "Special Revenue" was \$11,042,482.38.

Based on the Federal Census of January 1, 1920—1,463,610, with the estimated increase to Jan. 1, 1921 of 24,258 making a total of 1,487,868, a per capita expenditure of \$7.42 is obtained for West Virginia.

The per capita of \$7.42 is divided as follows:

	Amount Expended	Per Capita
Aid to Local School Funds (including salaries of County Superintendents of schools) . . . . .	\$ 743,365.06	\$ .50
Buildings and Land, Repairs and Improvements . . . . .	654,659.77	.44
Department of Public Safety . . . . .	211,925.69	.14
State Road Fund—State . . . . .	820,285.98	.55
State Road Fund—Federal . . . . .	927,471.80	.63
State Council of Defense War Fund . . . . .	8,032.00	.01
Federal War Training . . . . .	5,547.66	.00
Virginia Debt . . . . .	2,087,741.16	1.40
All other purposes (General) . . . . .	5,583,453.26	3.75
<b>Total . . . . .</b>	<b>\$11,042,482.38</b>	<b>\$7.42</b>

Eliminating the disbursements of Federal Aid to the State Road Fund, the per capita would be \$6.79.

The per capita for the year ending June 30, 1920, was \$5.10, divided as follows:

	Amount Expended	Per Capita
Aid to Local School Funds (including salaries to County Superintendents of schools) . . . . .	\$ 574,230.01	\$ .39
Buildings and Land, Repairs and Improvements . . . . .	521,146.58	.35
Department of Public Safety . . . . .	94,843.82	.07
State Road Fund—State . . . . .	829,396.06	.57
State Road Fund—Federal . . . . .	429,555.68	.29
State Council of Defense War Fund . . . . .	1,280.90	.00
Federal War Training . . . . .	36,457.83	.02
Virginia Debt . . . . .	661,980.92	.45
All other purposes (General) . . . . .	4,322,126.77	2.96
<b>Total . . . . .</b>	<b>\$ 7,471,018.57</b>	<b>\$ 5.10</b>

Eliminating the disbursements of Federal Aid to the State Road Fund, the per capita would be \$4.81.

The per capita for the year ending June 30, 1919, was \$4.54, divided as follows:

	Amount Expended	Per Capita
Aid to Local School Funds (including salaries of County Superintendents . . .	\$ 908,412.31	\$ .63
Buildings and Land, Repairs and Improvements . . . . .	333,506.23	.23
State Road Fund—State . . . . .	311,874.59	.22
State Road Fund—Federal . . . . .	49,290.80	.03
State Council of Defense War Fund . . . . .	34,933.11	.02
Federal War Training . . . . .	187,298.72	.13
Virginia Debt . . . . .	1,106,219.63	.76
All other purposes (General) . . . . .	3,653,684.94	2.52
<b>Total . . . . .</b>	<b>\$ 6,585,220.33</b>	<b>\$ 4.54</b>

Eliminating the disbursements of Federal Aid to the State Road Fund, the per capita would be \$4.51.

The per capita for the year ending June 30, 1918, was \$3.07, divided as follows:

	Amount Expended	Per Capita
Aid to Local School Funds (including salaries of County Superintendents of Schools . . . . .	\$ 703,707.53	\$ .49
Buildings and Land, Repairs and Improvements . . . . .	490,537.65	.34
State Road and State War Funds . . . . .	192,595.48	.13
All other purposes (General) . . . . .	2,994,663.11	2.11
<b>Total . . . . .</b>	<b>\$ 4,381,503.77</b>	<b>\$ 3.07</b>

The per capita for the year ending June 30, 1917, was \$2.88, divided as follows:

	Amount Expended	Per Capita
Aid to Local School Funds (including salaries of County Superintendents of Schools) . . . . .	\$ 695,433.46	\$ .50
Buildings and Land, Repairs and Improvements . . . . .	364,991.49	.26
All other purposes (General) . . . . .	2,974,410.11	2.12
<b>Total . . . . .</b>	<b>\$ 4,034,835.06</b>	<b>\$ 2.88</b>

The per capita for the year ending June 30, 1916, was \$3.06, divided as follows:

	Amount Expended	Per Capita
Aid to Local School Funds (including salaries of County Superintendents of Schools) . . . . .	\$ 775,331.67	\$ .57
Buildings and Lands, Repairs and Improvements . . . . .	697,277.60	.51
All other purposes (General) . . . . .	2,700,766.25	1.98
<b>Total . . . . .</b>	<b>\$ 4,173,375.52</b>	<b>\$ 3.06</b>

The per capita for the year ending June 30, 1915, was \$2.75, divided as follows:

	Amount Expended	Per Capita
Aid to Local School Funds (including salaries of County Superintendents of Schools.....	\$ 698,902.01	\$ .51
Buildings and Lands, Repairs and Improvements.....	273,068.74	.20
All other purposes (General).....	2,769,281.76	2.04
<b>Total.....</b>	<b>\$ 3,741,252.51</b>	<b>\$ 2.75</b>

A comparison of the per capita for the last seven years for the three general classes of expenditures—"Aid to Local Schools," "Improvements" and "All other Purposes" is as follows:

Per Capita Expenditure

	1915	1916	1917	1918	1919	1920	1921
Aid to Local School including salaries of County Superintendents of Schools.....	\$0.51	\$0.57	\$0.50	\$0.49	\$0.63	\$0.39	\$0.50
Buildings and Lands Repairs and Improvements.....	.20	.51	.26	.34	.23	.35	.44
State War Fund..	.....	.....	.....	.08	.02	.....	.01
All other purposes (General).....	2.04	1.98	2.12	2.11	2.52	2.96	3.75
<b>Totals.....</b>	<b>\$2.75</b>	<b>\$3.06</b>	<b>\$2.88</b>	<b>\$3.02</b>	<b>\$3.40</b>	<b>\$3.70</b>	<b>\$4.70</b>
State Road Fund..	.....	.....	.....	.05	.25	.86	1.18
Federal War Training	.....	.....	.....	.....	.13	.02	.00
Virginia Debt.....	.....	.....	.....	.....	.76	.45	1.40
Department of Public Safety.....	.....	.....	.....	.....	.....	.07	.14
<b>Totals.....</b>	<b>\$2.75</b>	<b>\$3.06</b>	<b>\$2.88</b>	<b>\$3.07</b>	<b>\$4.54</b>	<b>\$5.10</b>	<b>\$7.42</b>

The foregoing tables show that the per capita expenditure of the State for the year 1921 is 7.42 as compared with \$5.10 for 1920, \$4.54 for 1919, \$3.07 for 1918, \$2.88 for 1917, \$3.06 for 1916 and \$2.75 for 1915.

The per capita expenditure for general purposes is \$3.75 as compared with \$2.96 for 1920, \$2.52 for 1919, \$2.11 for 1918, \$2.12 for 1917, \$1.98 for 1916 and \$2.04 for 1915.

*Per Capita Expenditures*

The following table shows a per capita distribution of expenditures for the last seven fiscal years:

For What Purpose

	1915	1916	1917	1918	1919	1920	1921

#### STATE TAX COMMISSIONER'S OFFICE.

#### 311.—Appropriation of Moneys Collected by Chief Inspector of Public Offices. (Special Revenue.)

The following are payments made to the examiners for services and transportation in auditing counties, districts and municipalities.

This fund is made up of moneys collected from the various taxing districts audited. Section 8 of the Uniform Accounting Act provides that the costs of the audits when collected shall be paid into the State Treasury and disbursed by the Chief Inspector in the same manner as appropriations are disbursed.

Eighth Annual Report

AUDIT OF THE FINANCES

OF

State of West Virginia

Showing in Detail the Sources of Revenue and the Pur-  
poses of Expenditures for the Fiscal Year  
Ending June 30, 1922

1921-1922

TRIBUNE PRINTING CO., CHARLESTON, W. VA.

## LETTER OF TRANSMITTAL

---

STATE OF WEST VIRGINIA,  
OFFICE OF STATE TAX COMMISSIONER,  
Charleston, November, 1922.

*To His Excellency, EPHRAIM F. MORGAN,  
Governor of West Virginia.*

SIR:—In compliance with the provisions of Chapter 40, Acts of the Legislature, Regular Session 1915, I herewith submit to you the Eighth Annual Report covering Financial Transactions of the State of West Virginia for year ending June 30, 1922.

Your attention is called to pages 12 to 18, inc., of this report, showing both actual and estimated condition of the "State Fund, General Revenue."

Respectfully submitted,

WALTER S. HALLANAN,  
*State Tax Commissioner, Ex-Officio Chief  
Inspector of Public Offices.*

## Letter of Chief Accountant

---

HON. WALTER S. HALLANAN,  
*Chief Inspector and Supervisor of Public Offices.*

SIR:

I have the honor to report that in compliance with your instructions and the provisions of an Act of the Legislature of West Virginia entitled: "An Act to Provide for an Annual Report of all Financial Transactions of the State \* \* \*," (Acts Regular Session 1915, Chapter 40), I proceeded to audit the finances of the State of West Virginia and report thereon showing in detail the receipts and disbursements for year ending June 30, 1922, and was assisted in compiling the facts contained in this report by C. A. Wood, H. C. Paxton, W. E. Whiteman and W. E. McKnight.

Briefly stated, the cash receipts and disbursements of the State for the year ending June 30, 1922, are as follows:

### Cash Receipts and Disbursements of the State Treasury of West Virginia for the Year Ending June 30, 1922

---

#### GENERAL SCHOOL FUND

Cash Balance July 1, 1921.....	\$ 666,080.20
<i>Receipts</i>	
Receipts for the year ending June 30, 1922 (see page 32 for itemized list).....	1,286,278.33
	1,286,278.33
Total receipts, including balance.....	\$ 1,952,358.53
<i>Disbursements</i>	
Payments to the several school districts apportionment of the Supplemental Aid to Teachers' and Building Funds (see page 67 for itemized list).....	\$ 1,519,570.00
Payments for support of Depart- ment of Free Schools, and other purposes (see page 48 for item- ized list).....	287,061.70
	287,061.70
Total disbursements.....	\$ 1,806,631.70
	1,806,631.70
Cash balance, July 1, 1922.....	\$ 145,726.83

---

**THE SCHOOL FUND**

Cash balance July 1, 1921..... \$ 5,700.00

*Receipts*

From redemption of bonds and other securities of  
"The School Fund" (see page 32 for itemized  
list)..... 166,000.00

Total receipts, including balance..... \$ 171,700.00

*Disbursements*

For investment in bonds and other securities (see  
page 43 for itemized list)..... 171,700.00

Cash balance July 1, 1922..... \$.....

---

**WORKMEN'S COMPENSATION FUND**

Cash balance July 1, 1921..... \$ 35,530.98

*Receipts*

Premiums on Insurance..... \$ 1,843,050.55

Interest on Deposits..... 8,476.98

Interest on Invest-  
ments..... \$ 533,887.57

Less accrued inter-  
est on bonds..... 114,539.49 419,348.08

Insurance on Furniture..... 28,950.04

Redemption of Bonds (see page 33  
for itemized list)..... 5,550,300.00

Total receipts..... \$ 7,850,125.65

Total receipts, including balance..... \$ 7,885,656.63

*Disbursements*

For payments of benefits..... \$ 1,941,704.85

For investment in bonds and other  
securities (see page 44 for item-  
ized list)..... 5,691,100.00

Administration expense other than  
Salary of Commissioner (see page  
381 for itemized list)..... 138,103.84

Replacement of furniture..... 40,000.00

Total disbursements..... \$ 7,810,908.69

Cash balance July 1, 1922..... \$ 74,747.94

---

**STATE FUND—GENERAL REVENUE**

Cash balance July 1, 1921 . . . . . \$ 198,290.33

*Receipts*

Receipts for the year ending June 30, 1922 (see page 35 for itemized list) . . . . . 6,560,240.69

Total receipts, including balance . . . . . \$ 6,758,531.02

*Disbursements*

For payment of requisitions of State Board of Control which are payable out of "general revenue" (see page 153 for detail) . . . 4,087,631.15

For payment of requisitions of others than State Board of Control which are payable out of "General Revenue" (pages 71 to 152) . . . . . 2,006,317.09

Total disbursements . . . . . \$ 6,093,948.24

Cash balance July 1, 1922 . . . . . \$ 664,582.78

**STATE FUND—SPECIAL REVENUE**

Cash balance July 1, 1921 . . . . . \$ 393,965.69

*Receipts*

Cash available for appropriations which are payable on requisitions of State Board of Control out of money collected for specific purposes (see page 36 for itemized list) . . . . . \$ 1,471,906.97

Cash available for payment of appropriations which are payable on requisitions of others than State Board of Control out of moneys collected for specific purposes (see page 36 for itemized list) . . . . . 318,239.65

Total receipts . . . . . 1,790,146.62

Total receipts, including balance . . . . . \$ 2,184,112.31

*Disbursements*

For payment of requisitions of State Board of Control which are payable out of moneys collected for specific purposes (see page 343 for itemized list).....	\$ 1,161,584.84
For payment of requisitions of others than State Board of Control which are payable out of moneys collected for specific purposes (see page 357 for itemized list).....	275,467.01
<b>Total disbursements.....</b>	<b>1,437,051.85</b>

Cash balance July 1, 1922..... \$ 747,060.46

**STATE FUND—MONEYS BELONGING TO COUNTIES  
DISTRICTS AND MUNICIPALITIES**

Cash balance July 1, 1921..... \$ 118,471.93

*Receipts*

Cash available for payment to counties, districts and municipalities, the county, district and municipal taxes collected on delinquent lands.....	\$ 110,389.08
Cash available for payment to counties, districts and municipalities, the county, district and municipal taxes collected from public service corporations.....	6,927,583.55

### CASH BALANCE IN STATE TREASURY OF WEST VIR- GINIA, JULY 1, 1922, BY FUNDS, AS SHOWN BY AUDITOR'S AND TREASURER'S RECORDS

The School Fund.....	\$	0.00
General School Fund.....		145,726.83
Workmen's Compensation Fund.....		74,747.94

State Fund—General Revenue.....	664,582.78
State Fund—Special Revenue.....	747,060.46
State Fund—Moneys belonging to Counties, Dis- tricts and Municipalities.....	127,956.21
State Road Fund.....	14,665,143.30
State Road Sinking Fund.....	150,004.68
Sinking—Fund—Virginia Debt.....	558,930.04
State Interest and Sinking Fund.....	46,791.64

Total cash balance, all funds..... \$17,180,943.88

NOTE—\$22,589.00 of the above balance is not available for checking purposes and is represented by deposits made in the following banks, which have been in the hands of receivers:

Fidelity Banking & Trust Co., Bluefield.....	\$ 13,457.39
First National Bank, Sutton.....	67.49
First National Bank, Friendly.....	537.34
Grafton Bank.....	193.72
Peoples Bank of Keyser.....	8,333.06

Total..... \$ 22,589.00

**BONDS AND OTHER SECURITIES HELD BY THE  
STATE OF WEST VIRGINIA, JULY 1, 1922,  
ACCOUNT INVESTMENT OF:**

The School Fund.....	\$ 1,000,000.00
Workmen's Compensation Fund.....	9,406,100.00
State Interest and Sinking Fund.....	1,974,350.00

Total..... \$12,380,450.00

NOTE—See page 451 for list of bonds and securities held by State—the School and Workmen's Compensation Funds.

NOTE—The securities held by the State account investment of "The School Fund" cannot be disposed of except for reinvestment and the income from same must be credited to the "General School Fund."

The securities held by the State account investment of "Workmen's Compensation Fund" cannot be used for any purpose but for the payment of benefits awarded by the Compensation Commissioner.

See page 12 for explanation—State Interest and Sinking Fund.

*Explanation of "General School Fund"*

The "General School Fund" can be expended only for the payment of appropriations for salaries and expenses of the State Department of Free Schools, compensation of Institute Instructors per diem and expense of State Board of Education, expense of Uniform Examinations, salaries of County Superintendents, cost of Certification and Publishing of Delinquent Taxes, and distribution of school moneys to the several school districts of the State.

*Explanation of "The School Fund"*  
 "The School Fund" cannot be expended, but can only be invested, the income from same to be credited to the "General School Fund."

*Explanation of "Workmen's Compensation Fund"*

The "Workmen's Compensation Fund" can be expended only for the payment of benefits awarded by the Compensation Commissioner, and for the cost of administration of the fund.

*Explanation of "State Fund—General Revenue"*

The "State Fund—General Revenue" can be expended only for the payment of appropriations made by the Legislature, which are payable out of the "General Revenue."

*Explanation of "State Fund—Special Revenue"*

The "State Fund—Special Revenue," can be expended only for the payment of appropriations which are payable on the requisitions of the State Board of Control out of money collected for the specific purpose and of appropriations which are payable on requisition of the Public Service Commission, Tax Commissioner, State Department of Health, Adjutant General, Commissioner of Agriculture and State Auditor, out of money collected for the specific purpose.

*Explanation of "State Fund—Moneys Belonging to Counties, Districts and Municipalities"*

The "State Fund—Moneys belonging to Counties, Districts and Municipalities" can be disbursed only for payment to counties, districts and municipalities, the amount of county, district and municipal taxes collected by the State Auditor on account of delinquent lands and public service corporations. At the time of collecting State tax on delinquent lands and on property assessed by the Board of Public Works, the State Auditor collects county district and municipal taxes on said property.

*Explanation of "State Road Fund"*

The "State Road Fund" consists of the proceeds of all state license taxes collected upon automobiles, motor or stream driven vehicles, and on chauffeurs or operators, and in addition thereto, the amount derived from the sale of \$50,000,000 state road bonds, authorized to be issued by the constitution, \$15,000,000 of said \$50,000,000 were sold in the fall of 1921 and placed in said fund. The \$15,000,000 can be used only for the construction or reconstruction of state roads, the balance of the fund can be expended only for the purpose of paying the expenses of the State Road Commission, as appropriated by the legislature for the payment of interest on and principal of outstanding road bonds, and for construction, reconstruction and maintenance of state roads.

*Explanation of "State Road Sinking Fund"*

The "State Road Sinking Fund" can be used only for the payment of interest on outstanding Road Bonds and for redemption of State Road Bonds or for investment in other Bonds which mature prior to the date of maturity of the State Road Bonds. All receipts in said fund to date have been derived from payments made by the State Road Fund out of License Taxes collected and interest on deposit of State Road Funds.

*Explanation of "State Interest and Sinking Fund"*

The "State Interest and Sinking Fund" can be used only for the payment of interest on outstanding Bonds of the State and its various taxing districts, and for the redemption of, or investment in Bonds issued by the State and its various taxing districts. The receipts of this Fund are derived from moneys paid by the State Road Sinking Fund and Sinking Funds of the several counties, districts, school districts, and municipalities of the State. Chapter 157, Acts 1921, created the State Sinking Fund Commission for the purpose of administering Sinking Funds belonging to the various taxing districts of the State. Separate accounts are kept for the Sinking Fund of each Bond issue and after the interest on outstanding bonds has been paid the residue of funds is used in retiring outstanding Bonds if the same are available. If Bonds cannot be purchased and retired then the Funds are invested in Bonds issued by some other taxing district of the State.

**ACTUAL CONDITION "STATE FUND—GENERAL REVENUE" JULY 1, 1922**

The "State Fund—General Revenue," July 1, 1922, included \$340,738.45 of "1923 General Revenue" or revenue for the year ending June 30 1923 which was collected in advance. Salaries and other expenses aggregating \$863,933.74 incurred prior to July 1, 1922, were not paid until after said date, hence these expenditures would not be shown by the fund on July 1, 1922.

Approximately \$680,000.00 of "1922 General Revenue" or revenue belonging to the year ending June 30, 1922, was uncollected July 1, 1922, hence this revenue would not be included in the fund on July 1, 1922.

Therefore, to determine the actual condition of the "State Fund—General Revenue" July 1, 1922, there should be added to the "Cash Balance" in the Fund July 1, 1922..... \$ 664,582.78  
1922 revenue uncollected and not included in  
fund July 1, 1922..... 680,000.00

Total..... \$ 1,344,582.78

And there should be deducted from  
the balance the following:

1923 revenue collected in advance and included in fund July 1, 1922	\$ 340,738.45	
*1922 expenses paid after July 1, 1922	863,933.74	
Total to deduct		1,204,672.19

Leaving as an actual balance in the State Fund

—General Revenue, July 1, 1922..... \$ 139,910.59

\*Includes all expenditures from former year appropriations during the first 60 days of the new year, the time fixed by law for payment of former year bills.

*Former Year Appropriations Unexpended*

Appropriations carried over from former years which are available for expenditure during the year ending June 30, 1923, are shown by the following table.

**Building and Land:**

Capitol and Office Building.....	\$ 224,635.62
New Mansion.....	16,030.80
West Virginia University.....	284,657.76
New River State School.....	55.38
Potomac State School.....	32,612.22
Concord Normal School.....	853.54
Glenville Normal School.....	30,881.00
Marshall College.....	72,815.89
Collegiate Institute.....	44,411.17
Bluefield Colored Institute.....	7,481.68
Colored Orphans' Home.....	5,631.11
Deaf and Blind School.....	12,173.47
Colored Deaf and Blind School.....	10,000.00
Boys' Industrial School.....	49,000.00
Industrial School for Colored Boys.....	74,358.04
Industrial Home for Colored Girls.....	24,800.00
Weston State Hospital.....	6,000.00
Spencer State Hospital.....	24,915.54
Colored Hospital for Insane.....	74,930.32
Tuberculosis Sanitarium.....	23,560.92

Total Buildings and Land \$ 1,019,804.46

**Sundry Purposes:**

Auditor's Office—Land Grant Index.....	2,670.00
Supreme Court—Rebinding Reports.....	1,628.59
Wrecking Old Capitol Building.....	19,016.65
Printing and Binding.....	30,571.64
Oil and Gas Tax Transportation Litigation, Suit, Pa. and Ohio vs. West Virginia.....	9,024.54
Widow of Chas. Walker.....	332.18
Vicksburg Monument Commission.....	500.00
Total Sundry.....	1,170.02

Total..... \$ 64,913.62

\$ 1,084,718.08

Chapter 5 of Acts 1917 provides that every appropriation except for Buildings and Land remaining unexpended at the end of the year shall cancel, except all appropriations remain in effect for 60 days for the payment of former years' bills. Appropriations canceled under this act aggregated \$822,075.54. (See page 475 for itemized list.) Appropriations for Buildings and Land remain in effect for three years from the date of passage of appropriation act.

The appropriations shown above designated for sundry purposes contain a special provision that the same should continue in force until the purposes of the appropriations has been carried out.

---

**ESTIMATED CONDITION OF "STATE FUND—GENERAL REVENUE" JUNE 30, 1923**

Actual balance in "State Fund—General Revenue,"  
July 1, 1922..... \$ 139,910.59

*Receipts*

Estimated "General Revenue" receipts for year  
ending June 30, 1923 (see page 27 for itemized  
list)—Ordinary..... 6,793,000.00  
Extraordinary Revenue—Sale of Property..... 1,275,000.00

Total estimated receipts, including balance  
at beginning of year..... \$ 8,207,910.59

*Disbursements*

Estimated expenditures out of Gen-  
eral Revenue for year ending  
June 30, 1923:—

Disbursements by State Board of Control:  
Salaries and current expenses.... \$ 2,666,250.00  
Repairs and improvements..... 347,500.00  
Buildings and land..... 464,795.91

Total State Board of Control \$ 3,478,545.91

Department of Public Safety  
expenses..... \$ 500,000.00  
Appropriation to General School  
Fund..... 1,000,000.00  
Capitol Buildings and Land..... 1,724,635.62  
Repairs and Improvements..... 21,000.00  
Expenditures by all other depart-  
ments and commissions..... 1,538,946.97  
Estimated expense of 1923 Legis-  
lature and Miscellaneous current  
year appropriations..... 350,000.00

Grand total estimated expenditures (see page 28 for itemized list) ..... \$ 8,613,128.50

Estimated deficit in "State Fund—General Revenue" June 30, 1923..... \$ 405,217.91

*Appropriations Unexpended June 30, 1923*

The above estimate provides for the expenditure of the entire amount appropriated for the year ending June 30, 1923, except \$1,774,872.93 appropriations made by the 1921 Legislature for Buildings and Land, and \$25,000.00 appropriated for Current Expenses of State Colored Hospital for Insane, and \$10,000.00 for Governor's Mansion and Grounds, \$25,000.00 for 1921 legislative Printing and Binding, and \$19,016.65 for Wrecking old Capitol, the last four named items probably will not be needed, hence will cancel by expiration at end of the year. The appropriations for Buildings and Land will remain in effect until May, 1924. Hence, if these appropriations remain unexpended July 1, 1923, they must be taken care of in the expenditures for the year ending June 30, 1924. If these appropriations were to be expended this year, the estimated deficit June 30, 1923, would be \$2,180,090.84. The appropriation for Building and Land as stated before which are not considered in the expenditures for the current year ending July 1, 1923, are as follows:

Purchase of Ground and Construction of New Mansion .....	\$ 98,530.80
West Virginia University, Chemistry Bldg. . . . .	387,780.58
West Virginia University, Physical Education Building.....	239,979.97
Potomac State School.....	72,612.22
Concord State Normal School.....	85,000.00
Glenville State Normal School, Dormitory..	53,381.00
Glenville State Normal School, Physical Education Building.....	15,000.00
Shepherd College, State Normal School.....	12,500.00
Marshall College.....	145,000.00
West Virginia Collegiate Institute.....	95,000.00
Bluefield Colored Institute.....	46,000.00
West Virginia Colored Orphans' Home.....	12,500.00
Colored Deaf and Blind School.....	18,500.00
West Virginia Industrial School for Boys...	99,000.00
State Industrial School for Colored Boys...	149,358.04
State Industrial Home for Colored Girls....	49,800.00
Spencer State Hospital.....	25,000.00
Huntington Hospital.....	20,000.00
Colored Hospital for Insane.....	10,000.00
<b>Total—Buildings and Land.....</b>	<b>1,774,872.93</b>

*THE STATE'S FINANCIAL CONDITION*

It will be seen from the foregoing statements that the "State Fund—General Revenue" on June 30, 1922, shows a balance of \$139,910.59; however, former year appropriations aggregating \$1,084,718.08, were carried over unexpended and are available for expenditure during the present year; had these appropriations been expended the "State Fund—General Revenue" would have shown a deficit of \$944,807.49 on June 30, 1922. All of the appropriations carried over are for Buildings and Land except \$64,913.62. Probably \$45,000.00 of this amount will not be needed or expended.

It will be seen from the foregoing statements based on estimated Receipts and Disbursements for the present year, ending June 30, 1923, that the State will have on June 30, 1923, an estimated deficit of \$405,217.91. However, this does not provide for the expenditure of \$1,774,872.93 appropriations for Buildings and Land. If these appropriations were expended during the current year the deficit June 30, 1923, would be \$2,180,090.84.

In estimating the receipts for the current year, the receipts from the Gross Sales Tax Law are estimated at \$2,750,000.00; this tax is dependent entirely upon the volume of business. With improved business conditions the tax from this source may exceed the estimate; the State may also receive between \$100,000.00 and \$200,000.00 under the 1919 Special Privilege Tax Law for the transportation of oil and gas by pipe lines. (See page 17 for additional explanation.) It is therefore possible that the revenue receipts will exceed the estimate sufficient to wipe out the estimated deficit of \$405,217.91, on June 30, 1923.

We have had only one year's experience under the Gross Sales Tax Law, this fact together with the tax being dependent on business conditions makes a close estimate impossible. The law produced for the first year a little over \$2,000,000.00.

The appropriations for Buildings and Land aggregating \$1,774,872.93, which will not be expended this year but will be carried over into the new year which begins July 1, 1923, will be available for expenditure until May 3, 1924. Therefore, in fixing the appropriations for the next two years ending June 30, 1924, and June 30, 1925, said amount of \$1,774,872.93 must be considered as a liability to be provided for in said years.

The General Revenue Appropriations for the current year for all purposes except Buildings and Land aggregate \$6,089,300.00. The receipts for each of the next two years under present laws will not greatly exceed the estimated receipts for the current year which are estimated at \$6,793,000.00. (This eliminates extraordinary receipts account sale of property—old Capitol site and houses new site.)

If the appropriations for each of the years ending June 30, 1924, and 1925 for all purposes except Buildings and Land do not exceed the amount of the current years \$6,089,300.00 and estimating the receipts for each year at \$6,793,000.00 the excess, \$703,700.00, of receipts over appropriations would not be sufficient for the two

years to take care of Buildings and Land appropriations carried over from the last legislature amounting to \$1,774,872.93. Therefore, if the appropriations for each of the next two years for all purposes except Buildings and Land equal the amount of the present years appropriations, new or additional revenue must be provided by the 1923 legislature to cover all new appropriations for Buildings and Land and a part of the old appropriations for said purposes.

*To Briefly Summarize*

New or additional revenue must be provided by the 1923 legislature for the fiscal years ending June 30, 1924, and 1925, to cover, First: The amount of all new appropriations for Buildings and Land; Second: To cover whatever amount the appropriations for all other purposes for said years exceed the amount now fixed for the current year \$6,089,300.00 exclusive of Buildings and Land; Third: To cover a part of the appropriations for Buildings and Land carried over from former years available for expenditure after June 30, 1923, approximate requirement \$350,000.00, and Fourth: To cover whatever amount is appropriated for new Capitol.

The Legislature of 1919 enacted a law providing a special privilege tax for the transportation of oil and gas by pipe lines. The constitutionality of this law was attacked, and the Circuit Court of Kanawha County held the act to be unconstitutional. The Supreme Court of Appeals of this State held the act to be constitutional insofar as it applied to intra-state business. The United States Supreme Court reversed the Court below. The construction of the opinion of the United States Supreme Court is now (Nov. 1922), pending before the said Court, on re-hearing granted for construction of opinion, to determine if under the opinion the entire act is invalid, or if the act is valid insofar as imposing a tax on oil and gas both transported and consumed within West Virginia. The Supreme Court of Appeals of this State having construed the opinion of the United States Supreme Court to hold the entire act invalid. If the entire act is not held to be invalid the State probably will receive between \$100,000 and \$200,000. The 1921 Legislature repealed the act, hence the revenue received will be only for the two years that the act remained in effect.

At the time the act was passed, it was intended to apply the tax to both intra-state and inter-state business. It was estimated that it would produce over a million dollars revenue annually, and the appropriations made by the Legislature were made on that basis. The 1919 Legislature also used \$1,062,867.16 of the General Revenue of the State to make the cash payment on the Virginia Debt; no part of which was replaced by Special Revenue. This payment eliminated the State's Surplus and left nothing with which to meet emergencies. A large part of the revenue of the State has been required to make up these losses; and the volume of business has been below normal, hence the Gross Sales Tax Law

has produced less revenue, contributing at least in part to the State's present financial condition.

#### *New Capitol*

The old Capitol site together with a strip of land for street through the site now occupied by the temporary Capitol, Governor's Mansion and Board of Control, was sold for \$1,551,000.00. The State received \$533,455.23 insurance on the old Capitol and contents and has received or will receive \$75,000.00 or more from sale of property, rent of property new Capitol site, and interest on deferred payments. These items aggregate over \$2,150,000.00, almost sufficient to cover the amount appropriated by the last Legislature for new Capitol, \$2,250,000.00. This appropriation has been used in the purchase of the new site which will cost approximately \$1,950,000.00—price having been agreed upon for all lots except two.

The Legislature of 1921 authorized the State Capitol Building Commission to enter into contracts for new Capitol, to the extent of \$6,500,000.00 plus the amount received from insurance and sale of land, but as stated before, limited the amount to be expended prior to July 1, 1923 to \$2,250,000.00.

Revenue will have to be provided to meet future expenditures for new Capitol. After the Capitol or Office Buildings are completed, the State will have for sale the remainder of the property now occupied by the temporary Capitol, Governor's Mansion, and Board of Control, and the Capitol Annex property, which property probably will bring in excess of \$1,000,000.00.

#### *State Road Fund*

See page 42, for statement of last year receipts for State Road Fund. The receipts of this fund for the present year ending June 30, 1923, will exceed \$2,000,000.00 exclusive of Federal Aid.

#### *Virginia Debt Fund*

Chapter 10, Acts 1919, Extra Session, creates a Virginia Debt Sinking Fund, for the purpose of paying the principal and interest on \$13,500,000.00, 3½% bonds, dated January 1, 1919, issued as a part payment in settlement of the Virginia Debt. The balance of the payment being made in cash, \$1,062,867.16, out of the State Fund—General Revenue. The Act provides that West Virginia shall retain \$1,133,500.00 of the \$13,500,000.00 of bonds, until it is ascertained by the commonwealth of Virginia and certified to the state of West Virginia, the amount of said reserved bonds that West Virginia is entitled to retain in escrow representing lost, destroyed or undeposited Virginia deferred certificates. The Circuit Court of the City of Richmond found said amount to be \$861,225.00; thereupon the State of West Virginia reduced the amount of \$1,133,500 by delivering an additional amount of

\$272,275.00. The amount of \$861,225 is to be held by West Virginia in escrow until Virginia deferred certificates, which they represent, have been filed with the commonwealth of Virginia and certified to the State of West Virginia. The commonwealth of Virginia filed prior to July 1, 1922, certificates calling for delivery of escrow bonds, amounting to \$290,700.00. Any part of the \$861,225.00 remaining at the end of 20 years shall be the property of West Virginia. The act provides that a direct levy shall be laid sufficient to pay the interest on the bonds and 1-20 of the principal, annually. Levies under the act have been laid as follows: 10 cents for each of the years 1919, 1920 and 1921 and 5 cents for the year 1922.

The law provides that at least 1-20 of the total issue of the bonds shall be retired annually, beginning with the year 1919. If the Board of Public Works fail to purchase the required amount, then the required amount shall be retired by lot.

The State has purchased over \$3,200,000.00 of West Virginia bonds, so as to meet the annual retirement requirements for the years 1919, 1920, 1921, 1922 and a part of 1923. These bonds were purchased at an average price of approximately 84, making a saving of \$475,000.00.

The estimated receipts and liabilities of the Virginia Debt Fund for the year ending June 30, 1923, are as follows:

*Receipts*

Estimated revenue, 5 cent direct levy . . . . . \$ 1,000,000.00

*Liabilities*

Jan. 1, 1923, interest on bonds . . . . .	\$ 185,000.00
July 1, 1923, interest on bonds . . . . .	185,000.00
1-20 principal of bonds . . . . .	675,000.00

Total . . . . . \$ 1,045,000.00

A sufficient balance in the Virginia Debt Fund was carried over from last year to permit the State to anticipate the greater part of the required purchase for 1923, hence the present year levy can be used to anticipate the purchase for year 1924. A saving can be made in the purchase of bonds if funds are available to make purchases throughout the year instead of making the required total purchase at the end of the year.

*State Levies*

As a part of the State's General Revenue for the year ending June 30, 1923, a 1922 State Levy of 10 cents was laid. In addition to the General State levy of 10 cents, a 5 cent Virginia Debt levy was laid. 1922

*Expenditures for Permanent Improvements*

The following table shows expenditures by the State out of "General Revenue" for Buildings and Land, Repairs and Improvements, during the last thirteen years:

Year	Amount
1907-1908 .....	\$ 93,106.25
1908-1909 .....	73,947.59
1909-1910 .....	123,657.40
1910-1911 .....	183,690.50
1911-1912 .....	184,185.37
1912-1913 (9 months) .....	63,745.32
1913-1914 .....	159,140.78
1914-1915 .....	243,409.19
1915-1916 .....	650,750.39
1916-1917 .....	330,269.10
1917-1918 .....	490,537.65
1918-1919 .....	333,506.23
1919-1920 .....	521,146.58
1920-1921 .....	654,659.77
1921-1922 .....	1,254,233.55
Total .....	\$ 5,359,985.67

*Percentage Classification*

▣ The total amount disbursed by the State for all purposes (except investment of the "School Fund," disbursements from the "Workmen's Compensation Fund," disbursements of taxes collected for counties, districts and municipalities) during the year ending June 30, 1922, was \$6,093,848.24 from "General Revenue," and \$8,447,025.34 from "Special Revenue," total \$14,540,973.58. Briefly stated, this amount was expended from appropriations for the following purposes:

For What Purpose	Amount expended	Percent of total amount expended
Education.....	\$ 4,746,006.74	53.19
Boys' and Girls' Industrial Schools and Schools for Deaf and Blind..	155,493.70	1.73
Hospitals...‡.....	1,009,108.20	11.31
Children's Homes.....	63,259.89	.71
Courts and Law Library.....	240,188.66	2.71
Criminal Charges.....	85,000.00	.97

*State Road Commission.....	4,825,200.99	.....
*Virginia Debt.....	678,140.80	.....
<b>Grand Total.....</b>	<b>\$14,540,973.58</b>	<b>.....</b>

\*The last 3 items are not included in the percentage calculation, being new expenditures and not common to former years.

*Per Capita Classification*

As shown by the preceding table the total amount expended by the State during the year ending June 30, 1922, from both "General Revenue" and "Special Revenue" was \$14,540,973.58.

Based on the Federal Census of January 1, 1920—1,463,610, with the estimated increase to January 1, 1922 of 48,516, making a total of 1,512,126, a per capita expenditure of \$9.61 is obtained for West Virginia.

The per capita of \$9.61 is divided as follows:

	Amount Expended	Per Capita
Aid to Local School Funds (including salaries of County Superintendents of schools).....	\$ 1,610,448.82	\$ 1.06
Buildings and Land, Repairs and Improvements.....	1,139,825.68	.75
Department of Public Safety.....	437,713.08	.29
State Road Fund—State.....	3,842,716.53	2.54
State Road Fund—Federal.....	982,484.46	.65
New Mansion and Capitol.....	114,407.87	.08
Virginia Debt.....	678,140.80	.45
All other purposes (General).....	5,735,236.34	3.79
<b>Total.....</b>	<b>\$14,540,973.58</b>	<b>\$ 9.61</b>

Eliminating the disbursement of Federal Aid to the State Road Fund, the per capita would be \$8.96.

The per capita for the year ending June 30, 1921 was \$7.42, divided as follows:

	Amount Expended	Per Capita
Aid to Local School Funds (including salaries of County Superintendents of schools).....	\$ 743,365.06	\$ .50
Buildings and Land, Repairs and Improvements.....	654,659.77	.44
Department of Public Safety.....	211,925.69	.14
State Road Fund—State.....	820,285.98	.55
State Road Fund—Federal.....	927,471.80	.63
State Council of Defense War Fund.....	8,032.00	.01
Federal War Training.....	5,547.66	.00
Virginia Debt.....	2,087,741.16	1.40
All other purposes (General).....	5,583,453.26	3.75
<b>Total.....</b>	<b>\$11,042,482.38</b>	<b>\$ 7.42</b>

Eliminating the disbursements of Federal Aid to the State Road Fund, the per capita would be \$6.79.

The per capita for the year ending June 30, 1920, was \$5.10, divided as follows:

	Amount Expended	Per Capita
Aid to Local School Funds (including salaries to County Superintendents of schools).....	\$ 574,230.01	\$ .39
Buildings and Land, Repairs and Improvements.....	521,146.58	.35
Department of Public Safety.....	94,843.82	.07
State Road Fund—State.....	829,396.06	.57
State Road Fund—Federal.....	429,555.68	.29
State Council of Defense War Fund.....	1,280.90	.....
Federal War Training.....	36,457.83	.02
Virginia Debt.....	661,980.92	.45
All other purposes (General).....	4,322,126.77	2.96
<b>Total.....</b>	<b>\$ 7,471,018.57</b>	<b>\$ 5.10</b>

Eliminating the disbursements of Federal Aid to the State Road Fund, the per capita would be \$4.81.

The per capita for the year ending June 30, 1919, was \$4.54, divided as follows:

	Amount Expended	Per Capita
Aid to Local School Funds (including salaries of County Superintendents)...	\$ 908,412.31	\$ .63
Buildings and Land, Repairs and Improvements.....	333,506.23	.23
State Road Fund—State.....	311,874.59	.22
State Road Fund—Federal.....	49,290.80	.03
State Council of Defense War Fund.....	34,933.11	.02
Federal War Training.....	187,298.72	.13
Virginia Debt.....	1,106,219.63	.76
All other purposes (General).....	3,653,684.94	2.52
<b>Total.....</b>	<b>\$ 6,585,220.33</b>	<b>\$ 4.54</b>

Eliminating the disbursements of Federal Aid to the State Road Fund, the per capita would be \$4.51.

The per capita for the year ending June 30, 1918, was \$3.07, divided as follows:

	Amount Expended	Per Capita
Aid to Local School Funds (including salaries of County Superintendents of Schools).....	\$ 703,707.53	\$ .49
Buildings and Land, Repairs and Improvements.....	490,537.65	.34
State Road and State War Funds.....	192,595.48	.13
All other purposes (General).....	2,994,663.11	2.11
<b>Total.....</b>	<b>\$ 4,381,503.77</b>	<b>\$ 3.07</b>

The per capita for the year ending June 30, 1917, was \$2.88, divided as follows:

	Amount Expended	Per Capita
Aid to Local School Funds (including salaries of County Superintendents of Schools).....	\$ 695,433.46	\$ .50
Buildings and Land, Repairs and Improvements.....	364,991.49	.26
All other purposes (General).....	2,974,410.11	2.12
<b>Total.....</b>	<b>\$ 4,034,835.06</b>	<b>\$ 2.88</b>

The per capita for the year ending June 30, 1916, was \$3.06, divided as follows:

	Amount Expended	Per Capita
Aid to Local School Funds (including salaries of County Superintendents of Schools).....	\$ 775,331.67	\$ .57
Buildings and Land, Repairs and Improvements.....	697,277.50	.51
All other purposes (General).....	2,700,766.25	1.98
<b>Total.....</b>	<b>\$ 4,173,375.52</b>	<b>\$ 3.06</b>

The per capita for the year ending June 30, 1915, was \$2.75, divided as follows:

	Amount Expended	Per Capita
Aid to Local School Funds (including salaries of County Superintendents of Schools).....	\$ 698,902.01	\$ .51
Buildings and Lands, Repairs and Improvements.....	273,068.74	.20
All other purposes (General).....	2,769,281.76	2.04
<b>Total.....</b>	<b>\$ 3,741,252.51</b>	<b>\$ 2.75</b>

A comparison of the per capita for the last eight years for the three general classes of expenditures—"Aid to Local Schools," "Improvements" and "All other Purposes," is as follows:

	Per Capita Expenditure							
	1915	1916	1917	1918	1919	1920	1921	1922
Aid to Local School including salaries of County Superintendents of Schools.....	.51	.57	.50	.49	.63	.39	.50	1.06
Buildings and Lands, Repairs and Improvements.....	.20	.51	.26	.34	.23	.35	.44	.75
State War Fund.....	.....	.....	.....	.08	.02	.....	.01	.....
All other purposes (General).....	2.04	1.98	2.12	2.11	2.52	2.96	3.75	3.79
<b>Totals.....</b>	<b>2.75</b>	<b>3.06</b>	<b>2.88</b>	<b>3.02</b>	<b>3.40</b>	<b>3.70</b>	<b>4.70</b>	<b>5.60</b>
State Road Fund... ..	.....	.....	.....	.05	.25	.86	1.18	3.19
Federal War Training... ..	.....	.....	.....	.....	.13	.02	.....	.....
Virginia Debt.....	.....	.....	.....	.....	.76	.45	1.40	.45
New Capitol and Mansion.....	.....	.....	.....	.....	.....	.....	.....	.08
Department of Public Safety.....	.....	.....	.....	.....	.....	.07	.14	.29
<b>Totals.....</b>	<b>2.75</b>	<b>3.06</b>	<b>2.88</b>	<b>3.07</b>	<b>4.54</b>	<b>5.10</b>	<b>7.42</b>	<b>9.61</b>

The foregoing tables show that the per capita expenditure of the State for the year 1922 is \$9.61 as compared with \$7.42 for 1921, \$5.10 for 1920, \$4.54 for 1919, \$3.07 for 1918, \$2.88 for 1917, \$3.06 for 1916 and \$2.75 for 1915.

The per capita expenditure for general purposes is \$3.75 as compared with \$2.96 for 1920, \$2.52 for 1919, \$2.11 for 1918, \$2.12 for 1917, \$1.98 for 1916 and \$2.04 for 1915.

*Per Capita Expenditures*

See page 487 for per capita distribution of expenditures for the last eight fiscal years:

*Classification of Expenditures by Items*

Beginning at page 469 is a classification showing the various purposes for which money is expended. To illustrate, this table shows that the State expended during the year ending June 30, 1922, for postage \$31,196.03, as compared with \$26,992.18 for the year 1921, \$23,084.70 for the year 1920, \$26,131.73 for the year 1919, and \$24,208.53 for the year 1916; for beef and pork, \$73,119.10 as compared with \$87,815.99 for the year 1921, \$76,641.18 for the year 1916; for flour \$44,536.36, as compared with \$66,195.31 for the year 1921 and \$30,028.61 for the year 1916; for bread \$10,592.97 as compared with \$16,033.58 for the year 1921 and \$7,612.65 for the year 1916; for sugar \$10,836.46, as compared with \$37,234.73 for the year 1921, \$10,650.09 for the year 1919 and \$13,987.23 for the year 1916; for syrup \$4,045.65, as compared with \$5,551.04 for the year 1921, \$3,848.74 for the year 1916; for coal \$47,520.13, as compared with \$52,413.38 for the year 1921, \$41,365.73 for the year 1920, \$36,885.99 for the year 1919 and \$13,182.74 for the year 1916; for gas \$67,386.26, as compared with \$84,693.93 for the year 1921, \$90,204.87 for the year 1920, \$60,360.27 for the year 1919 and \$35,170.99 for the year 1916.

Attention is also called to the classification of expenditures, page 464 by departments and institutions, both "General" and "Special" revenue expenditures.

Respectfully submitted,

EVERETT A. DOVER,  
*Chief Accountant.*

**ESTIMATE OF THE RECEIPTS OF THE "STATE FUND,  
GENERAL REVENUE," FOR THE YEAR  
ENDING JUNE 30, 1923**

The following is an estimate of the revenue that will be available for the year ending June 30, 1923 for the payment of appropriations which are payable out of "General Revenue."

State tax 10 cent levy on real and personal property	\$ 1,575,000.00
State tax 10 cent levy on public service corporations	425,000.00
State license tax on charters.....	950,000.00
Land tax, excess acreage, paid by corporations....	2,000.00
Collateral inheritance tax.....	500,000.00
Tax on insurance and certificates of authority.....	425,000.00
Privilege tax on businesses and professions—gross sales.....	2,750,000.00
Fees accruing in Auditor's office.....	70,000.00
Fees accruing in Secretary of State's office.....	25,000.00
Fees accruing in Commissioner of Banking's office	25,000.00
Fees, Hotel Inspector.....	3,000.00
Sale of books by Secretary of State.....	3,000.00
Tax on seal.....	3,500.00
Statutory attorney fees.....	20,000.00
Collections from counties account inmates of Industrial School for Boys.....	15,000.00
Miscellaneous sources.....	1,500.00
Sale of Real Estate.....	1,275,000.00
	<hr/>
Total estimated "General Revenue" receipts for the year ending June 30, 1923.....	\$ 8,068,000.00
 The above is classified as follows:	
Revenue by Direct Levy.....	\$ 2,000,000.00
Revenue from other Sources—Ordinary.....	4,793,000.00
Extraordinary Revenue—Sale of Property.....	1,275,000.00
	<hr/>
Total.....	\$ 8,068,000.00

**ESTIMATE OF EXPENDITURES OUT OF THE STATE  
FUND, GENERAL REVENUE, FOR THE YEAR  
ENDING JUNE 30, 1923**

The following is an estimate of the amount that will be required and expended during the year ending June 30, 1923, from appropriations which are payable out of the general revenue.

This estimate includes all expenditures except those payable out of moneys collected for the specific purpose.

<i>Moneys Disbursed through State Board of Control</i>	
Board of Control Office—Salaries and other Expenses.....	\$ 61,000.00
Huntington State Hospital:	
Salaries and Current Expenses.....	125,000.00
Repairs and Improvement.....	12,500.00
Spencer State Hospital:	
Salaries and Current Expenses.....	125,000.00
Repairs and Improvements.....	12,500.00
For Sewerage.....	24,915.54
Weston State Hospital:	
Salaries and Current Expenses.....	210,000.00
Repairs and Improvements.....	25,000.00
Building and Land.....	12,000.00
Welch Hospital No. 1:	
Buildings and Land.....	12,000.00
Salaries and Current Expenses.....	45,000.00
Repairs and Improvements.....	15,000.00
McKendree Hospital No. 2:	
Salaries and Current Expenses.....	28,000.00
Repairs and Improvements.....	5,000.00
Fairmont Hospital No. 3:	
Salaries and Current Expenses.....	28,000.00
Repairs and Improvements.....	5,000.00
State Tuberculosis Sanitarium:	
Salaries and Current Expenses.....	100,000.00
Repairs and Improvements.....	20,000.00
Buildings and Land.....	61,060.92
State Colored Tuberculosis Sanitarium:	
Salaries and Current Expenses.....	22,500.00
Repairs and Improvements.....	5,000.00
